WILL BE CHANGE FROM ONE MAN POLICY--HARDING

Tells Traveling Men Will Stabilize Finances

BLOOMINGTON MAN IS SPOKESMAN

MARION, O., Sept. 25.—An administrative policy to stabilize financial conditions and "make the American government the friend and artner of American business," was proclaimed by Senator Harding today in a front porch speech to a delegation of traveling salesmen.

Charging that the present administration had invited industrial chaos by meddling and experimentation, the Republican nominee declared he wanted it "explicity understood that election to the executive office means a complete change from the one-man policy which has characterized our national government during the past seven years."

Would Reorganize Departments.

He also reiterated his accusations of Democratic extravagance and management in the expenditure of public funds, and asserted his purpose to reorganize many departments of the federal government on an efficient and economical basis.

That task, he said, he would summon the council of the ablest administrators of the country.

One of the largest crowds of the front porch campaign composed of commercial travellers from many cities, heard the spech and cheered the nominee many times as he contrasted his business policies with those of the Wilson administration. Standards bearing the names of more than a score of cities were in the parade and there were many banners pledging support. Several mottoes referred to Governor Cox alleged attitude towards business and traveling salesmen, one of the largest reading:

"Traveling MenJimmie Cox's 'Parasites'—Harding's 'Business Ambassadors'."

Bloomington Man Spokesman.

J. H. KKazar of Bloomington, Ill., was spokesmen for the salesmen, who came under the auspices of the Harding and Coolidge Traveling Men's League. In a short address he declared the league would lend its efforts everywhere towards Republican victory. He also suggested that a representative of the traveling salesmen should hold membership on the interstate commerce commission and in reply the senator said the salesmen "ought to be representde" in the federal government as they are an important factor in industrial life.

Most of the senator's day was given over to reciving the salesmen's delegation and to conferences with its leaders but he also had short talks with Senator Hale of Maine, Representative Kahn of California, and Maurice Connelly, a former Democratic representative from Iowa.

Mr. Kahn predicted that California would go Repubican by 200,000.

EUROPE LAYS DOWN ITS BALANCE SHEETS

Nations Show Result of the High Cost of Living—New States Must Lean on Older Nations for a While.

Brussels, Sept. 25.—(By The Associated Press.)—The nations of Europe laid their balance sheets before the financial conference at the morning and afternoon sessions today each telling anew the familiar story of the high cost of living. The discussion of the problem of reorganization of public finances will begin Monday.

The new states of Poland, Czecho-Slovakia and Jugo-Slavia told how they had to lean on the older nations to make up their deficits. Spain suggested that the strong neutrals should take over the shares of the belligerents in joint loans such as that Spain and France had undertaken in Morocco.

MAN 24 MARRIES WOMAN 62—BOTH HAPPY

Shelbyville, Ill., Sept. 25.—Delbert Flowers, 24, and Mrs. Josephine Hodson, 62, are on their honeymoon today, climaxing a romance started when Delbert in the trenches in France received woolen socks and comforting letters from Mrs. Hodson. Returning here after he was gassed, he became Mrs. Hodson's chauffeur, and now in another role, is still driving her automobile thru the west on their honeymoon.

MEN DRAGGED FROM THEIR HOMES

Ballinamore, Ireland, Sept. 25. —Several men were dragged from their homes by uniformed men today and forced, while on their knees, to swear that the boycott against the police would be removed. This action is understood to have been taken in reprisal for an attack on the local barracks last night.

IRISH QUESTION SHOULD BE SETTLED FOR AMERICAN IRISH

Former Senator Lewis Will Ask President Wilson to Intercede

NECESSARY FOR TRANQUILITY HERE

NEW YORK, Sept. 25.—Former United States Senator James Hamilton Lewis, Democratic candidate for governor of Illinois, who arrived here today on a speaking tour for the Democratic candidates for prsident and vice president, announced tonight that he would request President Wilson to ask England to "settle the Irish question to the satisfaction of the Irish of the United States."

"Such settlement," he said, "is necessary in order that the United States may have tranquility among her Irishmen, that the Irish may have complete confidence that everything is being done by the United States to give freedom and form of government to Ireland, that Irishmen in the United States hage a right to fight in turn for the liberty for which they fough in all wars of America."

Mr. Lewis also will ask the president to make a public statement on necessity of amending the peace treaty thru the "Democratic League of Nations," or the "Republican World Court."

"This," he added, "is necessary to remove the unjust burdens that have been put on Germany preventing her people from saving coal or ships and cutting off her commerce which will result in making Germany a necessary charge upon generosities of the United States."

POLITICIANS ARE WORSE THAN KAISER

That's What McAdoo Says and Most of Them are Republicans —Says Father-in-Law is Great Democrat.

Yonkers, N. Y., Sept. 25.—William G. McAdoo, speaking here tonight at the opening of the Democratic campaign in Westchester county declared "there are some American politicians and most of them are in the Republican party—who are just as bad as the kaiser and even worse."

"I don't say that they should be hanged," Mr. McAdoo added, "but if we could have some sort of St. Helena to which they could be sent, it would purge the body politic."

Mr. McAdoo declared the Republicans had blamed the Democratic administration for lack of preparations for war.

"We never had any preparedness for war under a Republican administration," he said. "It is a hypocritical and false statement that the Republicans are making." He praised Mr. Wilson as a "great Democrat, a man of vision, a man of clear character," and dellared "it is a sa dthing that during the president's illness there has not been one generaus word, one generous statement fro mthe enemy."

POLES TAKE 3,000 PRISONERS IN DRIVE

Have Reached Fortifications of Grodno—Also Capture Battery and Qantity of Material.

WWARSAW, Sept. 25.—In addition to 3,000 prisoners the Poles have captured a battery and a considerable quantity of material from the Russians it was announced today. In their northerly operations the Poles have reached the outer fortifications of Grodno and simultaneously have crossed the Niemen, occupying Druskieninki. In the same nameuver, the Poles advanced southeast of Grodno and captured Volkovsk.

With reference to the Suwalki front the communique says the Lithuanians are continuing to strengthen their front in their region, but that only local fighting has taken place.

In the Volhynian engagements the Poles besides the 3,000 prisoners taken captured a battery and considerable quatity of material from the Russians.

FRENCH AVIATORS QUALIFY FOR RACE

Etampes, France, Sept. 25.—(By The Associated Press.)—Sadi Lecointe, M. Kirsch and Captain DeRoumanet, flying two Nieuport airplanes and a Spad, respectively, qualified as the French contestants for the James Gordon Bennett international aviation cup race which is to be held next Tuesday. The elimination flights were over a 100 kilometer course. Parault, one of the contestants, made the course in 22 minutes 38 seconds, but was disqualified because he failed to take off between the starting posts. None of the American machines has been over the course.

WILLNOTSUBPOENAE WHITE SOX PLAYERS TIL SEASON CLOSES

Will Then Call E. Collins, J. Collins, and Other Players

JURY WILL BE CONTINUED AFTER SEPT. 30

Chicago, Sept. 25.—Plans to subpoena four members of the Chicago American League club and the wife of one of its players to appear next week before the Cook county grand jury investigating the alleged "fixing" of last year's world's series were abandoned today and Hartley Replogle in charge of the inquiry, announced that no members of the team would be called until the end of the baseball season. "We do not want to interfere with the chances of the White Sox to win the pennant,'" said Mr. Replogle. "When the season is over or when Chicago definitely is out of the pennant race, we will summon several members of the team."

Mr. Replogle said that the jury now had a list of prospective witnesses who would easily keep it busy until after the end of the season.

Subpoenas Held Up.

The players for whom subpoenas were issued early in the day, but held up by Mr. Replogle's orders, were Eddie Collins, field captain of the team, John Collins, first baseman, Ray Schalk, catcher, and Eddie Murphy, utility outfielder.

There still is no intention of calling any of the eight men whose world's series checks were held up last year, according to Mr. Replogle. Four of these men —Cicotte, Williams, Gandil and Felsch—were mentioned by J. C. (Rube) Benton in his testimony as persons "who might know something about the gambling."

To hold Special Session.

Mr. Replogle, who yesterday announced the jury would be continued in a special session after its regular term expired Sept. 30, tonight said that the investigation probably would last two months longer. Every person who is believed to possess any information concerning the alleged gambling wlil be subpoenaed, he said.

President B. B. Johnson, of the American League, who left a few days ago on what was expected to be a secret trip to New York for information, and President John Heydler of the National League, who has been conducting a private investigation for several weeks, will be the first witnesses when the jury reconvenes Tuesday.

Clyde Elliott, president of a moving picture concern, tonight said he had been subpoenaed to testify Tuesday and that he would give evidence that eight Chicago players agreed to "throw" games to Cincinnati and that an official of the club had known of it for some time.

"I have positive information about the New York gambling ring which engineered the deal and I am prepared to tell it all," he said.

FRENCH BRIDE HAS TROUBLE—FINALLY MARRIES

Litchfield, Ill., Sept. 25.—Returning from France with the A. E. F., John Zori, of Livingston, near here, left his French fiancee behind him. Back in Illinois his ardor for her cooled and he wrote her, offering his brother as a substitute. Mlle, Madeline Roussellet accepted. She arrived last week to find the younger brother had "other arrangements." Disappointmented but not down hearted she looked elsewhere and today became the bride of Robert Windisch, a robust young widower. They will live across the street from the Zoris.

SPRINGFIELD BOYS RUN DOWN RECKLESS DRIVER

Springfield, Ill., Sept. 25.—After witnessing what they described as the reckless running down of a pedestrian, four Springfield youths in an automobile followed George Shymanski's machine from 4:30 o'clock this afternoon until 9:15 tonight to get his license number. Police recognized the number as that of a speeder and in another half hour Shymanski was under arrest. Frank W. Anderson, the pedestrian, was severely injured but not internally.

BALLOON RACES START.

GRIFFITH WOULD HAVE STATES ADOPT DEVASTATED CITIES

Says That the English Atrocities are Worse Than Germany's

HELPING HOMELESS WOMEN AND CHILDREN

DUBLIN, Sept. 25.—Arthur Griffith, founder of the Sinn Fein today sent the following telegram to Professor Eamonn DeValera, "president of the Irish republic," who is in the United States:

"The English press announces that the English city of New Castle has decided to adopt Arras in the devastated region of France. Armed forces of England in Ireland are now devastating Irish towns, the circumstances of atrocity surpassing those alleged against Germany in Belgium or Turkey in Armenia.

"Everywhere our people are helping homeless women and children, but the systematic destruction of factories, work shops and creameries deprives men of employment.

"I suggest that in each state of the union our kindred should adopt one of our devastated towns."

ANNOUNCE REDUCTION IN LUMBER PRICES

CHICAGO, Sept. 25.—A reduction in lumber prices of 16 to 35 per cent over February quotations was announced today by retail dealers in Chicago and with an average wholesale reduction of 27 per cent thruout the country, according to statistics made public by L. R. Putman, directing manager of the Wholesale Lumber Association. The greatest reduction is in hardwood, Mr. Putman said, quotations being reduced 35 per cent over February prices.

SECURITIES STOLEN FROM BANK RECOVERED

Davenport, Ia., Sept. 25.—Securities aggregating over $50,000 in value, stolen from the Lone Tree, Ia., bank two weeks ago when its vault was blown by automobile bandits, was recovered today by the Davenport police.

The securities carefully packed away in a sack, were discovered by Edward Meyer hidden in a cornfield on his farm six miles northwest of here. He at once notified the police of his discovery.

GREEK CROSS REPLACES TURKISH CRESCENT

Smyrna, Asiatic Turkey—The Turkish crescent has been replaced by the Greek Cross in the public flag displays and the work of reorganization is proceeding under the Greek governor, Sterialis. Opposition to the Greek regime is felt but the officials who tell of it, say it comes rather from Greeks and other foreigners. These persons, they say, were under little restraint during Turkish rule but now that the foreigners are subjected to taxation and the Greek regulations, they are not so keen on the coming of "civilization."

JUDGES ARE CHARGED WITH ELECTION IRREGULARITIES

Paris. — Three judges in the Island of Martinique were elected recently by majorities that so far exceeded the number of voters in certain districts that they have been charged with election irregularities. Investigation, according to the prosecution, showed that 5,000 dead men were recorded as voting for one of the three while the other two contented themselves with a like number of imaginary supporters between them.

The voting lists were prepared by the judges.

HEAD OF CIVIL ENGINEERING WILL RESIGN POSITION

University of Illinois Professor Will Go to California

BUILT MANY BIG DAMS IN WEST

CHAMPAIGN, Ill., Sept. 25.—Professor Frederick Haynes Newell, head of the department of civil engineering at the University of Illinois and former director of the United States eclamation service, has announced that he will resign his position at the University and go to California. e does not expect to become engaged in any work at the present.

Professor Newell is one of the foremost engineers in the United States. While chief of the reclamation service, he directed the construction of nearly all of the reclamation work that was carried on during the Roosevelt administration. His biggest work is the Roosevelt dam in Arizona. He also built the Shoshone dam in Wyoming and several others in Colorado, Utah and Utah. He is president of the American Society of Engineers and is the author of many books of reclamation work.

NEW HIGH SCHOOL ADDED EVERY DAY

This Has Been Kept Up for 28 Years—Sixty-Five Per Cent Offer Four Year Course.

WASHINGTON. — New high schools have been added to the American educational system at the rate of at least one a day during the last 28 years.

Statistics compiled by the Federal Bureau of Education show that there are now more than 17,000 such schools, an increase of 452 per cent over the number in 1890. Attendance figures from 14,000 of the schools give a total of 1,735,619 scholars indicating in effect that one-tenth of the population is getting high school education, the bureau states.

Only 632 of the schools reporting to the bureau enroll 500 students each and 278 enroll over 1,000, while one-half of the 13,951 schools tabulated have an enrollment of between 27 and 100 students. City high schools constitute less than 10 per cent of the total. They enroll 52 per cent of all students. Amlost 85 per cent of the high schools are rural with 40 per cent of the students.

As 65 per cent of the schools offering a four-year course have terms of only 180 days during the year, a longer school terms is "unmistakably foreshadowed," according to bureau officials. The schools cost thousands of dollars to erect and to utilize the property for only 180 days a year is "bad judgment,' the statement said.

The number of high school graduates has increased from from 21,882 in 1890 to 224,367 in 1918. Considering the increase in population during this period, it is found that American youths are becoming over six times as well educated as they were.

The state of Texas leads in percentage of high school graduates who continue their studies in preparatory school or college. North Carolina and Kentucky are second and third respectively.

The average high school principal, the statistics show, receives $1,272 a year, or about $100 a month for the entire year. Principals of the District of Columbia, California, Arizona, Massachusetts and New York receive the highest salaries in the order named, while Nebraska pays the lowest average salary.

In 1918 there were 81,034 high school teachers, as compared with 9,120 in 1890. Since 1902 there has been a steady increase of women entering the profession and today only 34 per cent of all high school teachers are men.

CHAIRMAN WHITE RISES AND SPEAKS OUT IN MEETING

Accuses Harding of Not Being Fair in Statements

ATTACK WAS WHOLLY POLITICAL

New York, Sept. 25.—George White, chairman of the Democratic national committee, in a statement tonight, declared that "if the spirit of fairness and truth governed Senator Harding in his campaign he would not have been guilty at Marion yesterday of his unprovokable attack on the shipping board and his attempted disparagement of one of the real facts of the administration, the upbuilding of the American merchant marine."

The statement continued:

"As usual, the facts are in conflict with the senator's statements. Prior to this administration only 8 per cent of American ocean borne commerce was carried under the American flag. Now more than 50 per cent is so carried.

Flag Goes to Every Port.

"Our flag goes to every port in the world waving over American ships and our merchant marine is second only to Great Britain's. From 316,200 gross production in 1914, we have gone to 4,000,000 tons in 1919, and 200,000 now toil at shipbuilding where but 50,000 were employed six years ago.

"Senator Harding is a member of the committee on commerce and he knows that the facts I state are true. He knows that prompt cancelling of outstanding contracts when the war ended, a step that inefficiency would not have taken, saved the government $600,000,000. If he does not know it, Charles Piez of Chicago, who succeeded C. M. Schwab as director general and claims that he built the emergency fleet, can turn from his work of collecting Republican funds long enough to tell him so.

"This attack, as all others by the senator, is wholly political and not founded on the basis of fact."

OFFICER SUSPENDED WHIPS CITY EDITOR

Burlington Policeman Assaults Hawkeye City Editor—Paper Had Been Exposing Conditions in Burlington.

Burlington, Iowa, Sept. 25.—William Nichols, city editor of the Burlington Hawkeye and a newspaperman well known in St. Louis and Quincy was assaulted this evening by Police Officer Harrison as the result of exposures being made of conditions in the Burlington police department by the newspapers.

Harrison had just been suspended by the chief of police and met Nichols at police headquarters door. The policeman has been placed under bond to appear in court Monday. Former Night Captain Countryman was also suspended today.

FINNISH MEN MARRYING RUSSIAN WOMEN

Enables the Women to get Out of Russia.

Viborg, Finland — Hiring Finnish men to marry Russian women to enable the latter to get out of Russia nas become a popular and lucrative business in the border towns south of Viborg. The Finns exact a high price, but the method is unfailing. It makes a Finnish subject of the women, and is recognized as lawful by the two countries which have assumed diplomatic relations. Endless trouble ensues, of course, if the woman thus freed of Russia refuses to part with her pseudo-husband.

These newly married couples come out of Russia into Riarajoke, the frontier town, not more than 30 miles from Petrograd, with the daily exodus of Swedish and Finnish refugees.

MAYOR OF VERSAILLES RECOGNIZES SINN FEINERS

Paris. — The Irish Sinn Fein Republic has been "recognized" by the Mayor of Versailles but the recognizer is in danger of losing his job.

It happened in the course of a recent centennary celebration. Among the foreigners who placed wreaths and delviered speeches before the statue of General Hoche was an envoy from a country which has been mentioned quite frequently in despatches lately as the "de jure" Irish republic. The Mayor replied with great enthusiasm to the Sinn Feiner's oration, lauding "the new republic" which had grown out of the war

The British Embassy at Paris protested to the Quai d' Orsay and the Mayor has been asked to brush up in his geography and explain how it happens that he is unaware that Ireland is still a part of the friendly British Empire

To further the spread of Bolshevism in the western hemisphere resolutions were adopted at Moscow, the advices received here state, pledging support both moral and material to strike r either economic or political. Material aid is to be furnished the strikers in money paid by the American branch of the internatiolale.

Secret instruction adopted at the Moscow meeting are said to provide for a general strike of workers, particularly the railroad men and miners, "if their capitalist governments show any indications to strangle the revo lution."

Spread of bolshevik doctrines to the United States is part of a world-wide campaign the advices received here declare.

PHILANTHROPIST AND WELL KNOWN BANKER IS DEAD

Had Been in Failing Health for the Past Six Months

TWO BROTHERS IN GERMANY

NEW YORK, Sept. 25.—Jacob widely known banker and philanthropist died at his home here today.

Mr. Schiff's death was due to arteio sclerosia. He was stricken six months ago, members of the family said, but had not suffered to any extent until August when he was compelled to return home from a sojourn in the White Mountains.

His condition gradually became worse and he was confined to his home ten days ago.

Mr. Schiff's wife, his son Mortimer L. Schiff and his daughter, Mrs. Felix Warburg, were called to his bedside this afternoon when physicians gave up hope of recovery.

Two brothers, Phillip and Ludwig Schiff, merchants of Frankfort-on-Main, Germany, also survive him.

ANNOUNCE CONTROL OF CURTISS COMPANY

NEW YORK, Sept. 25.—Acquisition of the Curtiss Aeroplane and Motor Corporation by C. M. Keyes, vice president and chairman of the financial committee of that company was announced today thru the Manufacturerers' Air Craft Association. Mr. Keyes said he would assume control of the voting trust and the financial and manufacturing policties of the corporation.

"I have bought a substantial block of the stock of the Curtiss Aeroplane and Motor Corporation," said Mr. Keyes, "from the Willys-Overland and the J. N. Willys interests and will take control of the voting trust."

"Mr. Glenn H. Curtiss will continue to be head of the engineering division of the corporation and closely associated with me in the management."

WOMEN WILL BE GIVEN ACTUAL PART

WASHINGTON, Sept. 25.—Women are to be given an active part in the Democratic congressional campaign. Chairman Flood of the Democratic congressional committee announced today that five had been named to the executive committee of the national committee. They are:

Mrs. Cora Wilson Stewart, Kentucky; Mrs. Howard Wilson, Illinois; Mrs. Mary Foy, California; Mrs. Kent Hughes, Ohio and Mrs. Stuart Michaux, Virginia.

CEDAR RAPIDS STREET CAR MEN ON STRIKE

Cedar Rapids, Ia., Sept. 25.—Employees of the Cedar Rapids and Marion City Railway Company, who ran their cars into the barns Friday night as a protest against the one-man car system which goes into effect Monday, were still out tonight. Not a car has moved all day. People came to the business district in automobiles, on bicycles and on foot taking the strike good naturedly.

GIRL DIES WHILE WAITING FOR DOCTOR

Champaign, Ill., Sept. 25.—Mrs. Darrell Simpson, 19 years old, died in the office of Dr. E. L. Cavenee this evening while waiting for medical treatment for heart disease. Dr. Cavence was nominated for the office of coroner at the recent primary. Coroner J. V. Sweringen found death was due to heart trouble.

LEAGUE TO ENFORCE PEACE IS SUBJECTED TO SENATE PROBE

Verbal Battles Between Senator Reed and Mason

DISCUSS STARS AND STRIPES FINANCING

WASHINGTON, Sept. 25. — With the exceuption of a sub-committee inquiry into charges involving the financing of the campaign of Governor Cox in Ohio in 1918 and completion of its investigation into conditions in Missouri, the senate committee looking into presidential campaign funds and political influences had cleared its slate today when it adjourned its sessions here to reconvene in St. Louis, October 18. The Ohio inquiry will be conducted by Senators Edge and Pomrene in Dayton, beginning October 7.

Lacking the testimony of E. H. Talbot of Dayton, Ohio, who had been summoned in connection with the inmplied charge made before the committee yesterday that the Dayton Metal Products company had taken up a $5,000 note for Governor Cox in 1918 the committee conducted a hard drive toward clearing up loose ends of previous hearings.

The hearings today were devoted to further inquiry into the activities of the league to enforce peace; the connection between "Stars and Stripes," a weekly newspaper for former soldiers and the Democratic campaign organization the interracial council and the association of foreign language newpapers with T. Coleman DuPont, Republican national committeeman from Deleaware on the stand; and into trips of navy department officials and employes pincluding Secretary Daniels to the Pacific coast during the time of the Democratic convention in San Francisco.

Incidentally the committee heard details of what was described as a "quadrennial row" between Republican factions in North Carolina and apologized for having summoned Clarence R. Pugh from Elizabeth City, that state, for examination. It was found no evidence of any $50,000 fund provided by Chairman Hayes of the Republican National committee to organize North Carolina Textile Workers as a political opponent of Mr. Pugh had charged.

Stars and Stripes Financing.

Considerable time was devoted to examination of Richard H. Waldo of New York and it was from this witness that a statement that he understood B. M. Baruch and Secertary Meredith helped finance publication of the "Stars and Stripes' having been assessed as leading Democrats thru the influence of the Democratic National organization. Waldo said that Baruch had "come thru' under pressure with $7,000 and Secretary Meredith with $2,500.

Earlier in the day Mrs. Ethel M. Parks, secereatary to W. D. Jamieson, financial director of the Democratic national committee said that she had financed the paper on her own account and borrowed money, but refused to give the names of the men from whom she had obtained the funds. She testified that she had put a total of $48,000 into the publication and held 51 per cent of its stock for which she had made no payment.

Renew Investigation.

Renewed investigation of the books and activities of the League to Enforce Peace was conducted entirely by Senator Reed with Guy E. Mason, Washington representative for the league as a witness. The senator went thru the list of subscribers asking that they be identified by their business connections and engaged in a verbal battle with the witnesses over the league of nations covenant and the support of that project by the League to Enforce Peace during the time the treaty was before the senate.

Senator Reed demanded the submission of so many of the league's records and papers that Mason protested it would take a van to carry them down from New York and it finally was agreed that insteal an accredited representative of the committee would be given freedom of the office.

EUROPE LAYS DOWN ITS BALANCE SHEETS

Nations Show Result of the High Cost of Living—New States Must Lean on Older Nations for a While.

Brussels, Sept. 25.—(By The Associated Press.)—The nations of Europe laid their balance sheets before the financial conference at the morning and afternoon sessions today each telling anew the familiar story of the high cost of living. The discussion of the problem of reorganization of public finances will begin Monday.

The new states of Poland, Czecho-Slovakia and Jugo-Slavia told how they had to lean on the older nations to make up their deficits. Spain suggested that the strong neutrals should take over the shares of the belligerents in joint loans such as that Spain and France had undertaken in Morocco.

MAN 24 MARRIES WOMAN 62—BOTH HAPPY

Shelbyville, Ill., Sept. 25.—Delbert Flowers, 24, and Mrs. Josephine Hodson, 62, are on their honeymoon today, climaxing a romance started when Delbert in the trenches in France received woolen socks and comforting letters from Mrs. Hodson. Returning here after he was gassed, he became Mrs. Hodson's chauffeur, and now in another role, is still driving her automobile thru the west on their honeymoon.

MEN DRAGGED FROM THEIR HOMES

Ballinamore, Ireland, Sept. 25. —Several men were dragged from their homes by uniformed men today and forced, while on their knees, to swear that the boycott against the police would be removed. This action is understood to have been taken in reprisal for an attack on the local barracks last night.

IRISH QUESTION SHOULD BE SETTLED FOR AMERICAN IRISH

Former Senator Lewis Will Ask President Wilson to Intercede

NECESSARY FOR TRANQUILITY HERE

NEW YORK, Sept. 25.—Former United States Senator James Hamilton Lewis, Democratic candidate for governor of Illinois, who arrived here today on a speaking tour for the Democratic candidates for prsident and vice president, announced tonight that he would request President Wilson to ask England to "settle the Irish question to the satisfaction of the Irish of the United States."

"Such settlement," he said, "is necessary in order that the United States may have tranquility among her Irishmen, that the Irish may have complete confidence that everything is being done by the United States to give freedom and form of government to Ireland, that Irishmen in the United States hage a right to fight in turn for the liberty for which they fough in all wars of America."

Mr. Lewis also will ask the president to make a public statement on necessity of amending the peace treaty thru the "Democratic League of Nations," or the "Republican World Court."

"This," he added, "is necessary to remove the unjust burdens that have been put on Germany preventing her people from saving coal or ships and cutting off her commerce which will result in making Germany a necessary charge upon generosities of the United States."

POLITICIANS ARE WORSE THAN KAISER

That's What McAdoo Says and Most of Them are Republicans —Says Father-in-Law is Great Democrat.

Yonkers, N. Y., Sept. 25.—William G. McAdoo, speaking here tonight at the opening of the Democratic campaign in Westchester county declared "there are some American politicians and most of them are in the Republican party—who are just as bad as the kaiser and even worse."

"I don't say that they should be hanged," Mr. McAdoo added, "but if we could have some sort of St. Helena to which they could be sent, it would purge the body politic."

Mr. McAdoo declared the Republicans had blamed the Democratic administration for lack of preparations for war.

"We never had any preparedness for war under a Republican administration," he said. "It is a hypocritical and false statement that the Republicans are making." He praised Mr. Wilson as a "great Democrat, a man of vision, a man of clear character," and dellared "it is a sa dthing that during the president's illness there has not been one generaus word, one generous statement fro mthe enemy."

POLES TAKE 3,000 PRISONERS IN DRIVE

Have Reached Fortifications of Grodno—Also Capture Battery and Qantity of Material.

WWARSAW, Sept. 25.—In addition to 3,000 prisoners the Poles have captured a battery and a considerable quantity of material from the Russians it was announced today. In their northerly operations the Poles have reached the outer fortifications of Grodno and simultaneously have crossed the Niemen, occupying Druskieninki. In the same nameuver, the Poles advanced southeast of Grodno and captured Volkovsk.

With reference to the Suwalki front the communique says the Lithuanians are continuing to strengthen their front in their region, but that only local fighting has taken place.

In the Volhynian engagements the Poles besides the 3,000 prisoners taken captured a battery and considerable quatity of material from the Russians.

FRENCH AVIATORS QUALIFY FOR RACE

Etampes, France, Sept. 25.—(By The Associated Press.)—Sadi Lecointe, M. Kirsch and Captain DeRoumanet, flying two Nieuport airplanes and a Spad, respectively, qualified as the French contestants for the James Gordon Bennett international aviation cup race which is to be held next Tuesday. The elimination flights were over a 100 kilometer course. Parault, one of the contestants, made the course in 22 minutes 38 seconds, but was disqualified because he failed to take off between the starting posts. None of the American machines has been over the course.

WILLNOTSUBPOENAE WHITE SOX PLAYERS TIL SEASON CLOSES

Will Then Call E. Collins, J. Collins, and Other Players

JURY WILL BE CONTINUED AFTER SEPT. 30

Chicago, Sept. 25.—Plans to subpoena four members of the Chicago American League club and the wife of one of its players to appear next week before the Cook county grand jury investigating the alleged "fixing" of last year's world's series were abandoned today and Hartley Replogle in charge of the inquiry, announced that no members of the team would be called until the end of the baseball season. "We do not want to interfere with the chances of the White Sox to win the pennant,'" said Mr. Replogle. "When the season is over or when Chicago definitely is out of the pennant race, we will summon several members of the team."

Mr. Replogle said that the jury now had a list of prospective witnesses who would easily keep it busy until after the end of the season.

Subpoenas Held Up.

The players for whom subpoenas were issued early in the day, but held up by Mr. Replogle's orders, were Eddie Collins, field captain of the team, John Collins, first baseman, Ray Schalk, catcher, and Eddie Murphy, utility outfielder.

There still is no intention of calling any of the eight men whose world's series checks were held up last year, according to Mr. Replogle. Four of these men —Cicotte, Williams, Gandil and Felsch—were mentioned by J. C. (Rube) Benton in his testimony as persons "who might know something about the gambling."

To hold Special Session.

Mr. Replogle, who yesterday announced the jury would be continued in a special session after its regular term expired Sept. 30, tonight said that the investigation probably would last two months longer. Every person who is believed to possess any information concerning the alleged gambling will be subpoenaed, he said.

President B. B. Johnson, of the American League, who left a few days ago on what was expected to be a secret trip to New York for information, and President John Heydler of the National League, who has been conducting a private investigation for several weeks, will be the first witnesses when the jury reconvenes Tuesday.

Clyde Elliott, president of a moving picture concern, tonight said he had been subpoenaed to testify Tuesday and that he would give evidence that eight Chicago players agreed to "throw" games to Cincinnati and that an official of the club had known of it for some time.

"I have positive information about the New York gambling ring which engineered the deal and I am prepared to tell it all," he said.

FRENCH BRIDE HAS TROUBLE—FINALLY MARRIES

Litchfield, Ill., Sept. 25.—Returning from France with the A. E. F., John Zori, of Livingston, near here, left his French fiancee behind him. Back in Illinois his ardor for her cooled and he wrote her, offering his brother as a substitute. Mlle. Madeline Roussellet accepted. She arrived last week to find the younger brother had "other arrangements." Disappointmented but not down hearted she looked elsewhere and today became the bride of Robert Windisch, a robust young widower. They will live across the street from the Zoris.

SPRINGFIELD BOYS RUN DOWN RECKLESS DRIVER

Springfield, Ill., Sept. 25.—After witnessing what they described as the reckless running down of a pedestrian, four Springfield youths in an automobile followed George Shymanski's machine from 4:30 o'clock this afternoon until 9:15 tonight to get his license number. Police recognized the number as that of a speeder and in another half hour Shymanski was under arrest. Frank W. Anderson, the pedestrian, was severely injured but not internally.

BALLOON RACES START.

Birmingham, Ala., Sept. 25.—The first balloon to take the air in the national races was released at 5 p.m. It was piloted by Warren Ranson of Brookfield, O. The second bag ascended five minutes later. A strong breee was blowing and the balloons drifted westward.

MACHINISTS EXEPLL ONE OF THEIR NUMBER

Rochester, N. Y., Sept. 25,—Because of his memberbership in the "one big union," H. Linchenhely of Massillon, O., a delegate, was expelled today from the convention of the International Association of Machinists in session here.

GRIFFITH WOULD HAVE STATES ADOPT DEVASTATED CITIES

Says That the English Atrocities are Worse Than Germany's

HELPING HOMELESS WOMEN AND CHILDREN

DUBLIN, Sept. 25.—Arthur Griffith, founder of the Sinn Fein today sent the following telegram to Professor Eamonn DeValera, "president of the Irish republic," who is in the United States:

"The English press announces that the English city of New Castle has decided to adopt Arras in the devastated region of France. Armed forces of England in Ireland are now devastating Irish towns, the circumstances of atrocity surpassing those alleged against Germany in Belgium or Turkey in Armenia.

"Everywhere our people are helping homeless women and children, but the systematic destruction of factories, work shops and creameries deprives men of employment.

"I suggest that in each state of the union our kindred should adopt one of our devastated towns."

ANNOUNCE REDUCTION IN LUMBER PRICES

CHICAGO, Sept. 25.—A reduction in lumber prices of 16 to 35 per cent over February quotations was announced today by retail dealers in Chicago and with an average wholesale reduction of 27 per cent thruout the country, according to statistics made public by L. R. Putman, directing manager of the Wholesale Lumber Association. The greatest reduction is in hardwood, Mr. Putman said, quotations being reduced 35 per cent over February prices.

SECURITIES STOLEN FROM BANK RECOVERED

Davenport, Ia., Sept. 25.—Securities aggregating over $50,000 in value, stolen from the Lone Tree, Ia., bank two weeks ago when its vault was blown by automobile bandits, was recovered today by the Davenport police.

The securities carefully packed away in a sack, were discovered by Edward Meyer hidden in a cornfield on his farm six miles northwest of here. He at once notified the police of his discovery.

GREEK CROSS REPLACES TURKISH CRESCENT

Smyrna, Asiatic Turkey—The Turkish crescent has been replaced by the Greek Cross in the public flag displays and the work of reorganization is proceeding under the Greek governor, Sterialis. Opposition to the Greek regime is felt but the officials who tell of it, say it comes rather from Greeks and other foreigners. These persons, they say, were under little restraint during Turkish rule but now that the foreigners are subjected to taxation and the Greek regulations, they are not so keen on the coming of "civilization."

JUDGES ARE CHARGED WITH ELECTION IRREGULARITIES

Paris. — Three judges in the Island of Martinique were elected recently by majorities that so far exceeded the number of voters in certain districts that they have been charged with election irregularities. Investigation, according to the prosecution, showed that 5,000 dead men were recorded as voting for one of the three while the other two contented themselves with a like number of imaginary supporters between them.

The voting lists were prepared by the judges.

LUMBER MERCHANT DIES.

Chatham, Ont., Sept. 25.—Denny Smith of Bay City, Mich., lumber merchant and president of the Dominion Sugar Company, died of acute indigestion at his son's home here today.

HEAD OF CIVIL ENGINEERING WILL RESIGN POSITION

University of Illinois Professor Will Go to California

BUILT MANY BIG DAMS IN WEST

CHAMPAIGN, Ill., Sept. 25.—Professor Frederick Haynes Newell, head of the department of civil engineering at the University of Illinois and former director of the United States eclamation service, has announced that he will resign his position at the University and go to California. e does not expect to become engaged in any work at the present.

Professor Newell is one of the foremost engineers in the United States. While chief of the reclamation service, he directed the construction of nearly all of the reclamation work that was carried on during the Roosevelt administration. His biggest work is the Roosevelt dam in Arizona. He also built the Shoshone dam in Wyoming and several others in Colorado, Utah and Utah. He is president of the American Society of Engineers and is the author of many books of reclamation work.

NEW HIGH SCHOOL ADDED EVERY DAY

This Has Been Kept Up for 28 Years—Sixty-Five Per Cent Offer Four Year Course.

WASHINGTON. — New high schools have been added to the American educational system at the rate of at least one a day during the last 28 years.

Statistics compiled by the Federal Bureau of Education show that there are now more than 17,000 such schools, an increase of 452 per cent over the number in 1890. Attendanee figures from 14,000 of the schools give a total of 1,735,619 scholars indicating in effect that one-tenth of the population is getting high school education, the bureau states.

Only 632 of the schools reporting to the bureau enroll 500 students each and 278 enroll over 1,000, while one-half of the 13,951 schools tabulated have an enrollment of between 27 and 100 students. City high schools constitute less than 10 per cent of the total. They enroll 52 per cent of all students. Amlost 85 per cent of the high schools are rural with 40 per cent of the students.

As 65 per cent of the schools offering a four-year course have terms of only 180 days during the year, a longer school terms is "unmistakably foreshadowed," according to bureau officials. The schools cost thousands of dollars to erect and to utilize the property for only 180 days a year is "bad judgment,' the statement said.

The number of high school graduates has increased from from 21,882 in 1890 to 224,367 in 1918. Considering the increase in population during this period, it is found that American youths are becoming over six times as well educated as they were.

The state of Texas leads in percentage of high school graduates who continue their studies in preparatory school or college. North Carolina and Kentucky are second and third respectively.

The average high school principal, the statistics show, receives $1,272 a year, or about $100 a month for the entire year. Principals of the District of Columbia, California, Arizona, Massachusetts and New York receive the highest salaries in the order named, while Nebraska pays the lowest average salary.

In 1918 there were 81,034 high school teachers, as compared with 9,120 in 1890. Since 1902 there has been a steady increase of women entering the profession and today only 34 per cent of all high school teachers are men.

CHAIRMAN WHITE RISES AND SPEAKS OUT IN MEETING

Accuses Harding of Not Being Fair in Statements

ATTACK WAS WHOLLY POLITICAL

New York, Sept. 25.—George White, chairman of the Democratic national committee, in a statement tonight, declared that "if the spirit of fairness and truth governed Senator Harding in his campaign he would not have been guilty at Marion yesterday of his unprovokable attack on the shipping board and his attempted disparagement of one of the real facts of the administration, the upbuilding of the American merchant marine."

The statement continued:

"As usual, the facts are in conflict with the senator's statements. Prior to this administration only 8 per cent of American ocean borne commerce was carried under the American flag. Now more than 50 per cent is so carried.

Flag Goes to Every Port.

"Our flag goes to every port in the world waving over American ships and our merchant marine is second only to Great Britain's. From 316,200 gross production in 1914, we have gone to 4,000,000 tons in 1919, and 200,000 now toil at shipbuilding where but 50,000 were employed six years ago.

"Senator Harding is a member of the committee on commerce and he knows that the facts I state are true. He knows that prompt cancelling of outstanding contracts when the war ended, a step that inefficiency would not have taken, saved the government $600,000,000. If he does not know it, Charles Piez of Chicago, who succeeded C. M. Schwab as director general and claims that he built the emergency fleet, can turn from his work of collecting Republican funds long enough to tell him so.

"This attack, as all others by the senator, is wholly political and not founded on the basis of fact."

OFFICER SUSPENDED WHIPS CITY EDITOR

Burlington Policeman Assaults Hawkeye City Editor—Paper Had Been Exposing Conditions in Burlington.

Burlington, Iowa, Sept. 25.—William Nichols, city editor of the Burlington Hawkeye and a newspaperman well known in St. Louis and Quincy was assaulted this evening by Police Officer Harrison as the result of exposures being made of conditions in the Burlington police department by the newspapers.

Harrison had just been suspended by the chief of police and met Nichols at police headquarters door. The policeman has been placed under bond to appear in court Monday. Former Night Captain Countryman was also suspended today.

FINNISH MEN MARRYING RUSSIAN WOMEN

Enables the Women to get Out of Russia.

Viborg, Finland — Hiring Finnish men to marry Russian women to enable the latter to get out of Russia nas become a popular and lucrative business in the border towns south of Viborg. The Finns exact a high price, but the method is unfailing. It makes a Finnish subject of the women, and is recognized as lawful by the two countries which have assumed diplomatic relations. Endless trouble ensues, of course, if the woman thus freed of Russia refuses to part with her pseudo-husband.

These newly married couples come out of Russia into Riarajoke, the frontier town, not more than 30 miles from Petrograd, with the daily exodus of Swedisn and Finnish refugees.

MAYOR OF VERSAILLES RECOGNIZES SINN FEINERS

Paris. — The Irish Sinn Fein Republic has been "recognized" by the Mayor of Versailles but the recognizer is in danger of losing his job.

It happened in the course of a recent centenary celebration. Among the foreigners who placed wreaths and delviered speeches before the statue of General Hoche was an envoy from a country which has been mentioned quite frequently in despatches lately as the "de jure" Irish republic. The Mayor replied with great enthusiasm to the Sinn Feiner's oration, lauding "the new republic" which had grown out of the war

The British Embassy at Paris protested to the Quai d' Orsay and the Mayor has been asked to brush up in his geography and explain how it happens that he is unaware that Ireland is still a part of the friendly British Empire

PLANNED FOR SPREAD OF BOLSHEVISM IN THE UNITED STATES

Resolutions Were Adopted at Moscow Last July

WAS PART OF WORLD WIDE CAMPAIGN

WASHINGTON, Sept. 25.—(By The Associated Press.)—Establishment in the United States of a branch of the third internationale with the object of unifying the activities of the revolutionary organizations which function on the two American continents was ordered by the internationale at its Moscow meeting late in July, it has been learned by officials here.

To further the spread of Boishevism in the western hemisphere resolutions were adopted at Moscow, the advices received here state, pledging support both moral and material to strike r either economic or political. Material aid is to be furnished the strikers in money paid by the American branch of the internatiolale.

Secret instruction adopted at the Moscow meeting are said to provide for a general strike of workers, particularly the railroad men and miners, "if their capitalist governments show any indications to strangle the revo lution."

Spread of bolshevik doctrines to the United States is part of a world-wide campaign the advices received here declare.

PHILANTHROPIST AND WELL KNOWN BANKER IS DEAD

Had Been in Failing Health for the Past Six Months

TWO BROTHERS IN GERMANY

NEW YORK, Sept. 25.—Jacob widely known banker and philanthropist died at his home here today.

Mr. Schiff's death was due to arteio sclerosia. He was stricken six months ago, members of the family said, but had not suffered to any extent until August when he was compelled to return home from a sojourn in the White Mountains.

His condition gradually became worse and he was confined to his home ten days ago.

Mr. Schiff's wife, his son Mortimer L. Schiff and his daughter, Mrs. Felix Warburg, were called to his bedside this afternoon when physicians gave up hope of recovery.

Two brothers, Phillip and Ludwig Schiff, merchants of Frankfort-on-Main, Germany, also survive him.

ANNOUNCE CONTROL OF CURTISS COMPANY

NEW YORK, Sept. 25.—Acquisition of the Curtiss Aeroplane and Motor Corporation by C. M. Keyes, vice president and chairman of the financial committee of that company was announced today thru the Manufacturerers' Air Craft Association. Mr. Keyes said he would assume control of the voting trust and the financial and manufacturing policties of the corporation.

"I have bought a substantial block of the stock of the Curtiss Aeroplane and Motor Corporation," said Mr. Keyes, "from the Willys-Overland and the J. N. Willys interests and will take control of the voting trust."

"Mr. Glenn H. Curtiss will continue to be head of the engineering division of the corporation and closely associated with me in the management."

WOMEN WILL BE GIVEN ACTUAL PART

WASHINGTON, Sept. 25.—Women are to be given an active part in the Democratic congressional campaign. Chairman Flood of the Democratic congressional committee announced today that five had been named to the executive committee of the national committee. They are:

Mrs. Cora Wilson Stewart, Kentucky; Mrs. Howard Wilson, Illinois; Mrs. Mary Foy, California; Mrs. Kent Hughes, Ohio and Mrs. Stuart Michaux, Virginia.

CEDAR RAPIDS STREET CAR MEN ON STRIKE

Cedar Rapids, Ia., Sept. 25.—Employees of the Cedar Rapids and Marion City Railway Company, who ran their cars into the barns Friday night as a protest against the one-man car system which goes into effect Monday, were still out tonight. Not a car has moved all day. People came to the business district in automobiles, on bicycles and on foot taking the strike good naturedly.

GIRL DIES WHILE WAITING FOR DOCTOR

Champaign, Ill., Sept. 25.—Mrs. Darrell Simpson, 19 years old, died in the office of Dr. E. L. Cavenee this evening while waiting for medical treatment for heart disease. Dr. Cavence was nominated for the office of coroner at the recent primary. Coroner J. V. Sweringen found death was due to heart trouble.

LEAGUE TO ENFORCE PEACE IS SUBJECTED TO SENATE PROBE

Verbal Battles Between Senator Reed and Mason

DISCUSS STARS AND STRIPES FINANCING

WASHINGTON, Sept. 25. — With the exceuption of a sub-committee inquiry into charges involving the financing of the campaign of Governor Cox in Ohio in 1918 and completion of its investigation into conditions in Missouri, the senate committee looking into presidential campaign funds and political influences had cleared its slate today when it adjourned its sessions here to reconvene in St. Louis, October 18. The Ohio inquiry will be conducted by Senators Edge and Pomrene in Dayton, beginning October 7.

Lacking the testimony of E. H. Talbot of Dayton, Ohio, who had been summoned in connection with the inmplied charge made before the committee yesterday that the Dayton Metal Products company had taken up a $5,000 note for Governor Cox in 1918 the committee conducted a hard drive toward clearing up loose ends of previous hearings.

The hearings today were devoted to further inquiry into the activities of the league to enforce peace; the connection between "Stars and Stripes," a weekly newspaper for former soldiers and the Democratic campaign organization the interracial council and the association of foreign language newpapers with T. Coleman DuPont, Republican national committeeman from Deleaware on the stand; and into trips of navy department officials and employes pincluding Secretary Daniels to the Pacific coast during the time of the Democratic convention in San Francisco.

Incidentally the committee heard details of what was described as a "quadrennial row" between Republican factions in North Carolina and apologized for having summoned Clarence R. Pugh from Elizabeth City, that state, for examination. It was found no evidence of any $50,000 fund provided by Chairman Hayes of the Republican National committee to organize North Carolina Textile Workers as a political opponent of Mr. Pugh had charged.

Stars and Stripes Financing.

Considerable time was devoted to examination of Richard H. Waldo of New York and it was from this witness that a statement that he understood B. M. Baruch and Secertary Meredith helped finance publication of the "Stars and Stripes' having been assessed as leading Democrats thru the influence of the Democratic National organization. Waldo said that Baruch had "come thru' under pressure with $7,000 and Secretary Meredith with $2,500.

Earlier in the day Mrs. Ethel M. Parks, seceretary to W. D. Jamieson, financial director of the Democratic national committee said that she had financed the paper on her own account and borrowed money, but refused to give the names of the men from whom she had obtained the funds. She testified that she had put a total of $48,000 into the publication and held 51 per cent of its stock for which she had made no payment.

Renew Investigation.

Renewed investigation of the books and activities of the League to Enforce Peace was conducted entirely by Senator Reed with Guy E. Mason, Washington representative for the league as a witness. The senator went thru the list of subscribers asking that they be identified by their business connections and engaged in a verbal battle with the witnesses over the league of nations covenant and the support of that project by the League to Enforce Peace during the time the treaty was before the senate.

Senator Reed demanded the submission of so many of the league's records and papers that Mason protested it would take a van to carry them down from New York and it finally was agreed that insteal an accredited representative of the committee would be given freedom of the office.

Candidate Harding in answering the anti-saloon league query, says that his record is written and he is ready to stand by the record. That's a clean cut statement and should leave no questions in doubt. It is a fine thing for the Republican party that they have a candidate whose record they can invite the voters to inspect with the comforting assurance that when the inspection has been completed that allegiance in most cases will have been won.

If Mr. Hays is guilty of half the leadership and generalship tricks that Gov. Cox credits him with he must be the greatest national committee chairman that the ages have produced.

Prices of a great many commodities have been hard hit during the past few days. The public, however, should not get the idea that prices are quickly going to slip back to the pre-war levels. It is pretty certain that the prices in force before the war will not prevail again. The fact is there can be too much enthusiasm in this battering of prices. It will be better for the public generally if the descent is gradual.

A Chicago paper devoted a lot of space yesterday to a picture of a family that has been living in a tent because of certain housing difficulties. That's an old story in Jacksonville. A family of five lived for weeks in a tent in the rear of a west side residence waiting for the occupant of the house to move. This was done in due time—that is, when election day was past, and now everybody is happy. There is always a way of solving these housing problems if people are only willing to cooperate.

In 1808 it took three weeks for news of the election of James Madison to the presidency to reach the people of Kentucky. In 1822, for greater speed in spreading the news, couriers on horseback were substituted for delivering the word by stage coach. Today the telephone and telegraph can give the facts almost instantly—but the result of the last election is still in doubt. Why not try the horseback and stage methods?

SIX GOOD REASONS.

Six good and sufficient reasons why you should throw your support to the Republican ticket in the November election are given by the Republican Publicity Association in a statement just issued.

"1. The Republicans of the senate saved the nation from a surrender to the league of nations with its obligations to send men and supply money and munitions to fight the battles of Europe.

"2. The Republican congress cut the demands of the Democratic administration to the extent of $2,500,000,000 and thus saved that amount to the taxpayers of America.

"3. The Republican congress enacted a comprehensive merchant marine law which gives this nation power to prevent other nations from discriminating against American shipping and insures the establishment of permanent American ocean routes between the principal ports of the United States and all the other important ports of the world.

"4. The Republican congress passed the water power bill, which encourages private capital to invest in the construction of dams and electric plants for the development of power now going to waste, which bill safeguards the public interest by providing for the regulation of charges and for the payment of excessive profits into the treasury.

"5. The Republican congress passed the oil land leasing bill, which permits the development of oil lands owned by the government but prevents monopolization of such lands and secures to the government a proper share of the returns from the operation of the oil wells on public domain.

"6. The Republican congress checked the movement of the Democratic administration toward government ownership, government operation, socialism and autocracy. Republicans exposed and forced the abandonment of the Democratic policy of coddling bolshevism.

"And these are only a few of the more important reasons why you should place Republicans in charge of the national government," says the Publicity Association in conclusion.

Rippling Rhymes
By Walt Mason

Thoughtful.

I rise each morning at five o'clock, for that seems good to me; but when around my place I walk, I'm quiet as can be I know the folk who live next door expect to sleep till nine; they won't be bothered, as they snore, by any act of mine. They may be sluggards, thus to sleep, when I am wide awake, and I may think their slumber deep a most profound mistake; and they may hold that I'm a nut, whose flywheel backward goes, because I roam around my hut when other men repose. But while I do not bother them, and they don't bother me, our joint existence is a gem, a thing replete with glee. I used to rise at five o'clock, just as I'm doing now; and I would whistle, sing and talk, and holler at the cow. I wanted all the world to know that I had left my bed; and all the world would rise and throw steel bootjacks at my head. I used to see the windows rise in all the houses near, and angry men, with drowsy eyes, would throw the knick-knacks near. And bricks would hit me as I sat beneath my tree and vine; they often spoiled my Sunday hat and telescoped my spine. This happened often and again, until my lid was wrecked; and so I learned that other men have rights I must respect.

Legislative Candidate Talks About Election and Party Prospects.

Earl E. Searcy, one of the Republican nominees for member of the general assembly was in Jacksonville yesterday. Referring to his nomination and candidacy Mr. Searcy said:

"Morgan county Republicans cast a vote for me in the primary on the 15th which was not only gratifying, but which has left me with a profound sense of obligation to the west half of the forty-fifth senatorial district.

"New man that I am in politics about the only thing I can say in appreciation is that, if elected November 2 as successfully as I was nominated on the 15th, my one big effort and endeavor will be to play fair and square with the constituents who have expressed their confidence in me. The only effective means a constituency has of conveying its confidence or disapproval of a candidate is at the polls. Morgan county gave me a plurality of approximately 1,700. It is up to me to display good faith and to make good that expression. I intend to do so. I propose to be a representative in fact as well as in name. I shall seek the counsel of my friends in the district.

"Nationally, I predict an overwhelmingly Republican victory; not because the Democratic party does not have within it many high-minded partisans, but because the people want to return to common,ordinary principles which will insure national busi- and economic stability. As for Illinois, she will ge strongly Republican."

AGED RESIDENT DIES SATURDAY EVENING

Mrs. Ellen Mallen Passed Away at Age of 93 Years—Had Resided at 413 South Clay Avenue for Sixty Years.

Mrs. Ellen Mallen, aged 93 years, died at her home, 413 South Clay avenue at 8:30 o'clock Saturday evening. She had been in failing health for some time and death resulted from diseases incident to old age.

Mrs. Mallen was one of Jacksonville's oldest residents. It is not known just what year she came to Jacksonville, but she had resided at 413 South Clay avenue for the past sixty years.

She was born in Belfast, Ireland, and was united in marriage to John Mallen in this city in 1852. Mr. Mallen was for many years engaged in the transfer business. He preceded her in death about fifteen years ago.

Four sons, J. J., James, William and Thomas and one daughter, Margaret, also preceded her in death. She is survived by five daughters, Mrs. J. Delaney, of Chicago; Mrs. J. Rustemeyer, of Bloomington; Mrs. W. S. Cannon, Jacksonville; Mrs. Michael Crawley, of Springfield, and Mrs. Alfred Coverly, of Jacksonville. She also leaves twenty eight grandchildren and thirty great grandchildren.

Mrs. Mallen was a member of the Church of Our Savior and thru the years was faithful in her worship. She was a good neighbor and friend and was always ready to aid in sickness and trouble. Her going will bring sadness to many hearts.

Funeral services will be held from the Church of Our Savior Monday morning. Burial will be in Calvary cemetery.

Candidate Harding in answering the anti-saloon league query, says that his record is written and he is ready to stand by the record. That's a clean cut statement and should leave no questions in doubt. It is a fine thing for the Republican party that they have a candidate whose record they can favite the voters to inspect with the comforting assurance that when the inspection has been completed that allegiance in most cases will have been won.

If Mr. Hays is guilty of half the leadership and generalship tricks that Gov. Cox credits him with he must be the greatest national committee chairman that the ages have produced.

Prices of a great many commodities have been hard hit during the past few days. The public, however, should not get the idea that prices are quickly going to slip back to the pre-war levels. It is pretty certain that the prices in force before the war will not prevail again. The fact is there can be too much enthusiasm in this battering of prices. It will be better for the public generally if the descent is gradual.

A Chicago paper devoted a lot of space yesterday to a picture of a family that has been living in a tent because of certain housing difficulties. That's an old story in Jacksonville. A family of five lived for weeks in a tent in the rear of a west side residence waiting for the occupant of the house to move. This was done in due time—that is, when election day was past, and now everybody is happy. There is always a way of solving these housing problems if people are only willing to cooperate.

In 1808 it took three weeks for news of the election of James Madison to the presidency to reach the people of Kentucky. In 1822, for greater speed in spreading the news, couriers on horseback were substituted for delivering the word by stage coach. Today the telephone and telegraph can give the facts almost instantly—but the result of the last election is still in doubt. Why not try the horseback and stage methods?

SIX GOOD REASONS.

Six good and sufficient reasons why you should throw your support to the Republican ticket in the November election are given by the Republican Publicity Association in a statement just issued.

"1. The Republicans of the senate saved the nation from a surrender to the league of nations with its obligations to send men and supply money and munitions to fight the battles of Europe.

"2. The Republican congress cut the demands of the Democratic administration to the extent of $2,500,000,000 and thus saved that amount to the taxpayers of America.

"3. The Republican congress enacted a comprehensive merchant marine law which gives this nation power to prevent other nations from discriminating against American shipping and insures the establishment of permanent American ocean routes between the principal ports of the United States and all the other important ports of the world.

"4. The Republican congress passed the water power bill, which encourages private capital to invest in the construction of dams and electric plants for the development of power now going to waste, which bill safeguards the public interest by providing for the regulation of charges and for the payment of excessive profits into the treasury.

"5. The Republican congress passed the oil land leasing bill, which permits the development of oil lands owned by the government but prevents monopolization of such lands and secures to the government a proper share of the returns from the operation of the oil wells on public domain.

"6. The Republican congress checked the movement of the Democratic administration toward government ownership, government operation, socialism and autocracy. Republicans exposed and forced the abandonment of the Democratic policy of coddling bolshevism.

"And these are only a few of the more important reasons why you should place Republicans in charge of the national government," says the Publicity Association in conclusion.

Rippling Rhymes
By Walt Mason

Thoughtful.

I rise each morning at five o'clock, for that seems good to me; but when around my place I walk, I'm quiet as can be I know the folk who live next door expect to sleep till nine; they won't be bothered, as they snore, by any act of mine. They may be sluggards, thus to sleep, when I am wide awake, and I may think their slumber deep a most profound mistake; and they may hold that I'm a nut, whose flywheel backward goes, because I roam around my hut when other men repose. But while I do not bother them, and they don't bother me, our joint existence is a gem, a thing replete with glee. I used to rise at five o'clock, just as I'm doing now; and I would whistle, sing and talk, and holler at the cow. I wanted all the world to know that I had left my bed; and all the world would rise and throw steel bootjacks at my head. And bricks would hit me as I sat beneath my tree and vine; they often spoiled my Sunday hat and telescoped my spine. BAD FLOODS IN CHINA

Nanchang, Kiangsi Province, China. — Floods said to be worse than any recorded in the past 20 years in the district north of Nanchang are reported to be subsiding after having devastated a wide area . People of the districts flooded were on the verge of starvation. The district that has suffered most extends northward from Nanchang along the east bank of the Knn river to Poyang Lake. At one time the streets of Nanchang were under water. It is estimated that about 100 persons lost their lives in the floods.

DANISH PAPERS OUTSPOKEN IN CRITICISM OF OLYMPIC

Complain that Awards were Given on Principle of "Let the Best Man Win If He Is an Ally."

Copenhagen.—Danish papers have been outspoken in their criticism of alleged partiality in the judging of the Olympic games at Antwerp. They complain that awards were given on the principle of "Let the best man win if he is an ally."

The National Tidende's special correspondent at Antwerp charges that all games were umpired with a bias in favor of the allies. Typical in this respect, the correspondent says, was the sword combat between Denmark and Italy. All experts were agreed, he states, that Denmark was superior; nevertheless, the umpires gave the victory to Italy.

MUST ALLOW TURKEY BECOME STRONG STATE

Should Be Buffer Between Two Continents—Turning Point in Turkish History.

ANGORA, Asiatic, Turkey—(By the Associated Press.)—Carnage unparalleled in history will result if the Allies refuse to allow Turkey to become a strong state, standing between Europe and Asia according to Mrs. Halide Edib Hanem, a prominent woman member of Mustapha Kemal Pasha's Nationalist cabinet .

"Unless Turkey is permitted to develop into a strong and peaceful state," she told The Associated Press correspondent, "with enough western territory to make it a point of equilibrim between the two continents, the struggle will last beyond our lifetime.

"If in this struggle necessity unchains the power of Asia I expect bloodshed such as the world has never known.

Struggle for Existence.

"The Greeks, I believe, will be cleared out of Anatolia eventually, just as the French now are being ousted by a great rising of the Turkish population. No matter how long the struggle last we cannot lose much more. It is the ultimate struggle of the Turkish people for their existence.

"This extraordinary movement of supreme effort is bringing out force and energy Anatolia formerly utilized to hold the empire together. Now it is being used for nationtl existence.

"If Anatolia could be left alone, not subjected to moral and material blockades and continual treacherous attacks, she would be able to reconstruct herself into a prosperous country. The energy used in Anatolia for self-defense and the right to live is much more terrible than the west realizes. She is being driven into a corner by enemies who will not give quarter.

"This is the turning point in Turkish history, when the form of her government and the future life and culture are being determined. In her reconstruction the leading elements in Turkey all are products of the west. I believe a democratic life, in all its phases, can be stabilized in Anatolia more easily and more congenially than can Bolshevism, altho I have not seen Bolshevism applied.

"It would be a great pity to force the Turkish nation to extrmes that would compel her to adopt Asiatic ideals entirely in her organiv life. But that is what must happen, inevitably, if the Allies continue their warfare in Anatolia."

Mrs. Halide Edib Hanem is Minister of Education in Mustapha Kemel's cabinet, and an author of note in Turkey. She was condemned to death by default but fled to Anatolia and joined Kemel's government which has been fighting the Allies and the Sultan's government in Constantinople.

SEARCHING FOR SPAWN OF FRESH WATER EELS

CARDIFF, Wales. — Dr. Johannes Schmidt, a Danish scientist, is searching the Atlantic between the Azores and the West Indies for spawning fresh water eels, which the eye of man has never seen.

This announcement was made by Dr W. A. Herdman, professor of oceanography at Liverpool University, in his presidential address before the annual conference of the British Association.

"All the eels of the streams and lakes of northwestern Europe," Dr. Herdman said, "live and feed and grow under our eyes without reproducing their kind—no spawning eel has ever been seen. After living for years in immaturity, at last near the end of their lives the large male and female yellow eels undergo a change in appearance and in nature. They acquire a silvery color and their eyes enlarge, and in this bridal attire they commence the long journey which ends in maturity, reproduction and death.

"They migrate in the autumn to the coast, from the inshore seas to the open ocean and still westward and south to the mid-Atlantic and we know not how much farther, for the exact locality and manner of spawning have still to be discovered. The youngest known stages of the leptocephalus, the larval stage of eels, have been found by Dr. Schmidt to the west of the Azores, where the water is over 2,000 fathoms in depth. These were about one third of an inch in length and were probably not long hatched. Now Dr. Schmidt is traversing the Atlantic in the hope of finding the missing link in the chain, the actual spawning fresh water eel, in the intermediate waters somewhere above the abysses of the open ocean."

THE SERVICE STAR LEGION.

The Service Star Legion held an enjoyable meeting Friday afternoon, Sept. 24th., at three o'clock at the home of the president, Mrs. Mary T. Carriel was our regular monthly meeting.

After the transaction of business four new members were received into the chapter. There was a large attendance, much spirit and enthusiasm prevailed thruout the entire meeting.

The third National meeting of the S. S. L., was held at Des Moines, Iowa, the second week in this month. Our chapter was represented by Mrs. Martha Alcott as our delegate. She brought us a very full and comprehensive report of this convention which she gave at this meeting. She impressed the meeting with the brainy women this —convention was composed of, the ability they displayed in the management of the convention with brilliant address ,etc.

Des Moines is a city of conventions and as a city they seem to take great pride in their entertainment. One of the courtesys extended to the ladies was an auto ride thru the city. Another was an evening reception by the Governor and his wife. Autos were at the disposal of the visitors furnished by the chamber of commerce.

The Hour of Remembrance pageant was one of the most impressive parts.

We feel greatly indebted to Mrs. Alcott for the report she brought us of the convention.

The subject of planting our trees at Nichols Park—our victory drive—was briefly discussed. This matter will be taken up in earnest in the near future.

The meeting was then adjourned, and our hostess served very delicious refreshments.

The Pagient.

A Des Moines paper had these paragraphs about "The Hour of Remembrance Pageant:"

"One of the most impressive parts of the Service Star Legion convention will be the 'Hour of Remembrance,' pageant at 4:30 o'clock on the west ground of the state house. Mrs. Charles W. Hall, chairman of the Gold Star division, will conduct the services. The processional will be the first part of the service. Following the bugle call, the Battle Hymn of the Republic will be sung by a children's chorus, accompanied by the Argonne Post band. The Gold Star division will have an escort from the Argonne Post, American Service Legion, Fourteenth Cavalry and the naval recruiting station.

"The formation of the gold star will be made by 500 school children. The next part of the program will be a hymn, "Son or My Soul," sung by the children's chorus. The names of the men who died in service will be presented by Mrs. Charles W. Hall and Mrs. Lou C. McHenry. The Star Spangled Banner will be played by the Argonne Post band and Chaplain Winifred E. Robb, will give the prayer. Following this, the children's chorus and the audience will sing America, accompanied by Argonne Post band. Taps will precede the recessional.

"The regimental flag used will be that of Lieut. Edward Barnum, who died in service, sent to this mother, Mrs. E. B. Barnum, of this city. The committee in charge of the pageant includes Mrs. Frank Armstrong, Mrs. J. T. Fatherson. * * * "

RECRUITING OFFICE NOTES

Captain Skinner drove down from Springfield yesterday to visit the local recruiting station. Clarence Lambert was the chauffeur. Mr. Lambert is a former Jacksonville boy and has been in the service but a short time. Two hundred and fifty men have already enlisted in the Springfield division this month, the highest number of any month as yet. A few openings are in the army for criminal service in Germany. Members of this branch of the service must have at least a fairly good education and be able to speak German fluently. There are several vacancies for men to be sent to the United States military academy at West Point. A recent ruling gave the present officers permanent commisions.

HARRY GRISWOLD VISITS JACKSONVILLE

Harry Griswold of White Hall made this city a visit yesterday. He is a banker in Greene county and has but recently returned from a visit in Europe.

While in Europe he visited the battle fields of the world war, and was in Italy, France, Austria, Belgium and England. He was much impressed while in Europe at the manner in which the European countries are recovering from the effects of the war. The countries engaged in the war are carrying on the work of reconstruction with great speed.

Mr. Griswold is a graduate of Illinois College, graduating in 1897. His sister accompanied him on his European trip.

BAPTIST PROPERTY SOLD AT AUCTION

Two Houses and Two Farm Tracts Sold by the Executor.

Property belonging to the estate of the late John Baptist was sold yesterday at public auction at the court house by Robert Baptist and Lewis Baptist, executors of the estate. J. P. Lippincott was their attorney and Charles M. Strawn was the auctioneer.

There was a goodly number of buyers present, and the property was satisfactorily sold. The residence with five acres of ground on Caldwell street was purchased by Mrs. Benjamin Andrews for $2650. Another house and two lots became the property of Theodore Baptist for the sum of $1450.

Eighty acres of land located just south of the county farm was purchased by Fred Baptist for $211 per acre. Another 80 acres located a fourth of a mile east of the tract already mentioned was purchased by Theodore Baptist at $136 an acre.

Both tracts of land are without improvements and Mauvaisterre creek drainage district runs thru the west 80. Terms of sale provided for cash payment and possession to be given March 1.

WILL RAISE FUNDS FOR SALVATION ARMY

Morgan County Will Have Part in State Wide Drive — County Quota Is $3800.

Plans are being made for a Salvation Army campaign in this county. The quota for Morgan county is $3,800, this being a part of the state wide effort to raise $600,000 for the work of the Salvation Army. The Morgan county advisory board of the army met Saturday morning at the Ayers National bank with Carl C. Peterson, who came from the Salvation Army headquarters to explain the campaign plans and purposes.

There is an advisory board in every county of the state, and the intention is to make them permanent auxiliaries of the Salvation Army organiation. Thomas V. Hopper is the chairman of the Morgan county board and he was present yesterday, together with T. C. MacVicar, Mayor E. E. Crabtree, John O'Donnell, George L. Riggs and R. Y. Rowe.

After discussing matters in an informal way, the chairman appointed two committees, one for conference with the Passavant hospital organiation to arrange a harmonious understanding so that there may be no conflict between the hospital and the Salvation Army campaign efforts. This committee includes T. V. Hopper, T. C. MacVicar and R. Y. Rowe. The second committee was named consisting of A. T. Capps, George L. Riggs and J. H. O'Donnell for the purpose of organiing the campaign effort in the county.

CHICAGO U. WILL PLAY PRINCETON

Two Schools Will Clash in 1921 and 1922—First Gome to Be Played at Princeton Next Year.

Chicago, Sept. 25.—All doubt of the 1921-22 series between the Princeton and Chicago football teams not being arranged has been removed by the announcement that the first game between these two universities will be played at Princeton, N. J., on Saturady, October 22, 1921.

Coach A. A. Stagg of the University of Chicago, wwho has so energetically and successfully attended to the Maroon end of the negotiations, in expressing his warm appreciation of the possibilities of these contests, says:

"Princeton will find in the University of Chicago a good high-class competitor with definite ideals of sportsmanship and I haven't any doubt that Chicago will find in the Easterners the same sort of a competitor.

"Undoubtedly Chicago and the West will to a certain extent get some benefit from Princeton and the East. It is undeniably true that both will find each is made of the same sort of stuff and that their meetings will result in a mutual admiration for one another. And of course that cannot fail to react pleasantly. If the East finds that the Western boys are high-grade competitors and sportsmen, as the West will find Western boys, there will develop a mutual respect for one another which will be extended to the body politic."

Chicago has met four eastern institutions on the gridiron. These were Pennsylvania, Cornell, Brown and West Point. The Maroons played home-and-home series with the first two, which makes the Princeton series the third with eastern teams.

The first series, with Pennsylvania in 1898, 1899, 1900 and 1901, ta the Westeners, the scores being 11-23, 5-5, 0-41, and 0-11 in favor of Pennsylvania. In 1899 Chicago played its first game with Cornell winning 17-6. The Cornell series ran from 1908 to 1911. The two teams broke even. The first two years they tied at 6-6 in each game. Then Cornell beat Chicago 18-0 and in 1911 Chicago defeated Cornell 6-0.

The games with Brown University were both played at Chicago, in 1899 and 1900. The first went to Chicago 17-6, but Brown came back strong the next year and beat the Maroons 11-6. Chicago's only remaining encounter with the East yas in 1903, when West Point beat the westerners in a desperate battle 10-6.

Champaign, Ill., Sept. 25.—Tom Harshbarger, pitcher for the Champaign All-Star team, broke his right arm three inches above the elbow this afternoon while throwing a ball. The All-Stars were playing a picked team from the University of Illinois on Illinois field.

Do You Know

—That a tire dealer often makes a larger profit on the sale of a cheap tire than he makes on a good one?

—When you stop to consider the difference in the price to you between cheap tires and good ones that certainly indicates an even greater difference in the price to the dealer, and the manufacturer who makes the cheap tire cannot afford to build it of anything but cheap material.

—A price bargain therefore is nothing more or less than the name indicates. The only time it costs you less is at the actual moment of purchase. You cannot reasonably expect to get as much for your money when you buy goods made of cheap material, as when you get the best.

—We sell **GOODYEAR TIRES** and **TUBES** because they represent true economy. Last year and the year before more people rode on **GOODYEAR TIRES** than on any other kind. It's the same this year. It will be true next year and the year after.

The NEW EDISON

"The Phonograph with a Soul"

There's a way of spending money that spreads incomes over bigger "sandwiches."

Big business calls it financing.

Government calls it budget-making.

We call it the *Budget Plan.*

Would you like to own a New Edison?

Our Budget Plan will show you how to "swing" the purchase, without cutting in on your present necessary expenditures.

Now is a good time to buy. The New Edison has advanced in price less than 15% since 1914; this includes War Tax. Mr. Edison has kept prices down by absorbing increased costs out of his own pocket.

JACKSONVILLE WINS FROM BEARDSTOWN

Defeat Visitors by Score of 7 to 0 in Opening Game of Season—Hunt Scores Touchdown With Thirty Yard Run in Second Period—Heat Bothers Players.

Palmer Hunt, playing his first high school game of football, won the opening game of the season for Jacksonville from Beardstown on Illinois field Saturday afternoon by running thirty yards for a touchdown.

In making the run Hunt bowled over four of the Beardstown tacklers and placed the ball squarely back of the goal posts. One of the Beardstown men was compelled to leave the game because of Hunt's effective work.

The day was anything but propitious for football. The mercury was hovering around 90 in the shade and both players and spectators suffered from the heat. Despite this, the players of both teams played with a lot of "pep" and the game was remarkably fast for an opening contest.

Coach Mitchell sent a likely looking squad on the field to line up for the first whistle. They looked mighty good to us, and when the rough spots are worked out the coach is going to have a mighty nifty football team.

When it is considered that the men have only been working two weeks and that Coach Mitchell has changed greatly the style of play the old men were used to, the team's showing was remarkable.

Every man deserves credit for giving the best that was in him at all times. The line with but few exceptions held well and when Beardstown threatened to make a first down the men braced and took the ball or forced a kick.

The backfield looked especially good. Their running of interference is not polished as yet but that will come with practice and the playing of actual games.

Alexander ran the team with good judgment and also carried the ball well. H. Cockin tore up the visitors' line time and again and Hunt and Struck circled the Beardstown ends in good shape.

At the opening of the game Jacksonville kicked to Beardstown and soon compelled them to kick. Both teams were penalized several times during the first quarter for offside playing. The ball passed over several times during the quarter but the playing was all in Beardstown's territory. Just before the quarter ended Beardstown kicked and Jacksonville blocked the ball but Beardstown recovered it.

Hunt Scores Touchdown.

At the beginning of the second quarter Beardstown tried the line but could not gain and Jacksonville took the ball on downs. After making first down Beardstown held and Jacksonville tried a drop kick that went wild.

With the ball on her 35-yard line, Beardstown fumbled and Jacksonville got the ball. After gaining five yards on line plays, Hunt was given the ball and skirted Beardstown's right end for a touchdown. On the way to the goal line Hunt straightarmed four Beardstown tacklers, putting one of them out of the game for the afternoon. Lewis kicked the goal, making the score 7 to 0.

Beardstown kicked to Jacksonville at the beginning of the third quarter. Jacksonville carried the ball steadily down the field to Beardstown's territory but lacked the punch because of the heat and Beardstown's defense stiffened and the ball went over. Beardstown had made first down when time was called for the end of the half.

Beardstown started the fourth period by making first down on line plays. Jacksonville held and Beardstown kicked to Jacksonville's fifteen yard line, the first time the ball had been the local's territory. The ball passed over several times, being in Jacksonville's possession when the game ended. The lineup:

Jacksonville—Lewis, le.; Gard, (capt.), lt.; G. Cockin, lg.; Hackett, c.; E. Arnold, rg.; Bray, rt.; Reynolds, re.; Alexander, qb.; [illegible] lh.; Arter-Struck, rh.; H. [illegible]n, fb.

Beardstown—O'Neal, le.; Al[illegible], lt.; Laughary, lg.; Dever, c.; Stewart, rg.; Wright, rt.; Townsend, re.; Green qb.; Peters, lh.; Anderson, rh.; Kennedy (captain), fb.

Referee—Larson, Moline High. Umpire—Barnes, Illinois College. Headlinesman—Andrew, Illinois College. Timers—Shafer, Jacksonville High; Hyatt, Beardstown High. Time of quarters, 10 minutes.

HARVARD DEFEATS HOLY CROSS 3 TO 0

CAMBRIDGE, Mass., Sept. 25. held —Harvard's football team was held by Holycross to a single field goal and won 3 to 0, in the opening gome of the season today. Harvard started with some fair rushing plays and with the aid of a Hollycross fumble carried the ball to the visitors seven yard line. Here Buell dropped an easy field goal from the 18-yard line.

After trying in vain to gain thru plunges thru center and outside of tackle, Holycross switched to a forward pass in the last quarter and the first heave placed the ball squarely in a Harvard player's hands. This seemed to take the punch out of the visitors' offensive and the game ended with the ball on their three yard line.

COACH HARMON AT WHITE HALL

Was Referee of Contest Between White Hall and Alton—Pittsfield and Roodhouse Also Played at Roodhouse.

Coach Harmon and Wright of Illinois College were in White Hall Saturday where they officiated at the football game between Alton and White Hall High Schools.

Alton won the game by a score of 14 to 7. Coach Harmon said both teams were affected by the extreme heat.

Pittsfield played Roodhouse at Roodhouse Saturday afternoon. The Pike county boys who have a veteran aggregation, won by a score of 19 to 0.

WHITE SOX DEFEAT CLEVELAND 5 TO 1

Claude Williams Held the Indians to Five Hits — Joe Jackson Has Great Day at Bat Securing a Double, Single and a Home Run Drive.

CLEVELAND, O., Sept. 25.—Chicago defeated Cleveland today by a score of 5 to 1 taking two out of the three games in the present series and cutting Cleveland's lead to one-half game in the hot race for the American League championship. A record breaking crowd, estimated at 33,000 witnessed the game, overflowing the playing field except in a small space in center field.

Claude Williams the visitors' lefthanded twirler pitched masterly ball holding the Indians to five hits. At bat he contributed a double and a single. He had the locals at his mercy except in the third inning when Cleveland scored its only run on Sewell's double and two long flies. Cleveland made three of its five hits in this inning Evans and Wambsganns getting singles. Clevland batters popped the ball in the air thruout the game, Chicago players getting only four assists the first one in the sixth inning, against 21 for Cleveland.

The Cleveland team left tonight for St. Louis where they play tomorrow.

Chicago plays Detroit at Chicago tomorrow.

Joe Jackson made two doubles and a home run, but he made many enemies by his action in the fifth inning while running out his circuit hit. As the crowd cheered his effort, he made an insulting gesture as he rounded third base and repeated it as he crossed the plate. He was booed and jeered the remainder of the game, thousands of former soldiers who are here to attend the American legion convention shouting "shipyard!" at him.

CINCINNATI DROPS TWO GAMES TO CUBS

Alexander and Fisher Have Pitchers' Battle in First Game and Vaughn Had Little Trouble Winning the Second Contest.

Cincinnati, O., Sept. 25.—The Cubs closed their season's series here today by winning both games of a double header from the Reds. The locals were unable to hit Alexander or Vaughn with any effect and were beaten by scores of 2 to 0 and 7 to 1. In the first game Fisher held his own with Alexander until the ninth when the Cubs bunched three hits. In the second game Ring was hit hard in three innings and gave way to Coumbe in the eighth.

NEW YORK HANDS BROOKLYN SHUTOUT

Brooklyn, Sept. 25.—New York won the first game of the series that ultimately will decide the championship of the National league with Brooklyn today. The score 8 to 0 resulted from consistent hitting by the Giants and good pitching on the part of Barnes, backed up by wonderful fielding support.

The game was played under world's series conditions with an attendance that taxed every bit of available space at Ebbetts field. The gates were closed to all except those holding reserved seats an hour before the game started. Thousands were turned away. Notwithstanding the defeat today Brooklyn needs only to win two more games to clinch the pennant and this can be accomplished by taking the two from New York, or one from the Giants and the final game to be played with Boston.

New York scored today in four innings and made at least one hit in every inning.

Thescore:

SISLER STILL IN LEAD IN BATTING

Has Good Chances of Carrying Off Honors This Season—Speaker Second and Joe Jackson Third.

CHICAGO, Sept. 25.—As the major league clubs swing into the final two weeks of the pennant race, George Sisler, star first baseman with St. Louis, seems certain of carrying off the 1920 batting championship of the American League.

Sisler, according to figures compiled today, is showing the way with an average of .405, with Tris Speaker of Cleveland six points behind him. Joe Jackson of Chicago is in third place with .381 and Eddie Collins, captain of the Chicago club, fourth with .371. The averages include games of Wednesday.

"Babe" Ruth, the home run monarch, who went homerunless for a week, failed to shake off his batting slump, but managed to cling to fourth place in the list of leaders with an average of .367, altho he made only one hit in six games.

Rice of Washington is in no danger of being deposed as the leading base stealer. He has fifty-five thefts to his credit, while Sisler is next in line with thirty-seven.

Other leading batters: Jacobson, St. Louis, .346; Rice, Washington, .341; Judge, Wasnington, .330; Tobin, St. Louis; .338; Weaver, Chicago, 337; Felsch, Chicago, .334; Muesel, New York, .338; Cobb, Detroit, .327.

The scramble for the batting championship of the National League has developed into a tight race between Roger Hornsby of St. Louis and Nicholson of Pittsburgh with Hornsby topping the league with .365. Nicholson who lead the race a week ago, is a point behind the St. Louis slugger. Young of New York is third with .352 and Roush of Cincinnati, fourth with .340.

Cy Williams of Philadelphia, the leading home run hitter of the league, connected with another four base drive, bringing his total up to fifteen. In base stealing Max Carey of Pittsburgh continues to show the way with a total of forty-eight. Other leading batters:

J. Smith, St. Louis, .329; Wheat, Brooklyn, .325; Williams, Philadelphia, .319; Scott, St. Louis, .318; Holiocher, Chicago, .318; Konetchy, Brooklyn, Fournier, St. Louis, .309.

Wilbur Good of Kansas City, batted his way to second place in the race for the American Association championship, as a result of crashing out fourteen hits in his last seven games. He has an everage of .333, while Hartley of Columbus continues to top the league with .351. The averages include games of Wednesday.

Bunny Brief of Kansas City and Hargrave of the championship St. Paul club are again tied for honors in home run hitting, each having twenty-two. In base stealing, Rapp, of St. Paul, went into a tie with Dressen, his teammate, each having 46 thefts to his credit.

Other leading batters: Rondeau, —Minneapolis, .333; Hargrave, St. Paul, .331; Tincup, Louisvile, .331; Rapp, St. Paul, .327; Wickland, Toledo, .327; Kirke, Louisville, .326; Miller, St. Paul, .322; Brief, Kansas City, 316.

Final averages of the Western League show Carl East of the Wichita club as the 1920 batting champion. In 93 games East polled 123 hits for an average of .377. Yaryan, a teammate, finished in second place with .357. Yaryan also was the leading home run hitter, having bagged —forty-one. Lee of Omaha, outdistanced the league in base stealing, finishing the season with thirty-nine. Other leading batters:

Tierney, Tulsa, .335; Bogart, Joplin, 332; Beck, Wichita, .332; Walker, St. Joseph, 331; Lindimore, Oklahoma City, .330; Pitt, Oklahoma City,, .326; Platte, Omaha, .314; Moeller, Des Moines, .311.

Harper of Little Rock won the 1920 batting championship of the Southern Association with an average of .346, according to final averages released today. Carroll of Memphis, who lead the league in base stealing with 56, was runner-up in hitting with an average of .336. Miller of Little Rock was the leading home-run hitter with nineteen. Other leading batters:

McLarry, Memphis, .325; Miller, Little Rock, .322; Burnhart, Birmingham, .322; Bernsen, Birmingham, .320; Ellis, Birmingham, .316; Burke, Nashville, 315; Griffith, Birmingham, .304; Gilbert, New Orleans, .301.

INDIANA UNIVERSITY SMOTHERS FRANKLIN

Bloomington, Ind., Sept. 25.—Indiana University University playing in almost mid-season form today plowed thru the Franklin College football team almost at will winning the opening game of the season.

Only straight football was used, Coach Smith sending in a team of scrubs in the third quarter.

HANNIBAL MULES PLAY INDEES TODAY

Fast Colored Team Will Be Locals Opponents—Good Game is Promised—Ira Fanning Will be on the Rubber for Indees.

What promises to be one of the best games of the season will be staged at South Side park this afternoon when the Hannibal Mules a fast colored team will back up with the Indees.

The Mules come touted as a team of first-class players and have defeated some of the best teams in this section of the country.

Manager Smith will present a good battle front to the Mules when they start the game. Ira Fanning who has been pitching up in Dakota all summer will be on the mound for the Indees. Harry Clark will do the receiving.

Play will be called this afternoon promptly at 2:30 o'clock in order to give the Hannibal team time to catch the west bound Wabash for home. The team will lineup as follows:

Indees—Denny, 3b; Wheeler, 1b; Fanning, p; Clark, c; Scott, rf; DeFrates, ss; Christop[illegible], 2b; Wright, cf; Riggs, lf; Han[illegible] utility.

Your Tire Bills

YOU can save the price of from four to seven inner tubes this year.

Put this money in your pocket by fitting out with Lee Puncture-Proof Tires—extra heavy, finely made tires, road-proofed with the three patent disc-layers, a distinctive Lee feature, absolutely unpuncturable yet pliant and "frictionless."

Your saving in tubes alone will bring down the cost of Lee Puncture-Proofs to about that of ordinary tires.

Put Lee Puncture-Proofs on your car.

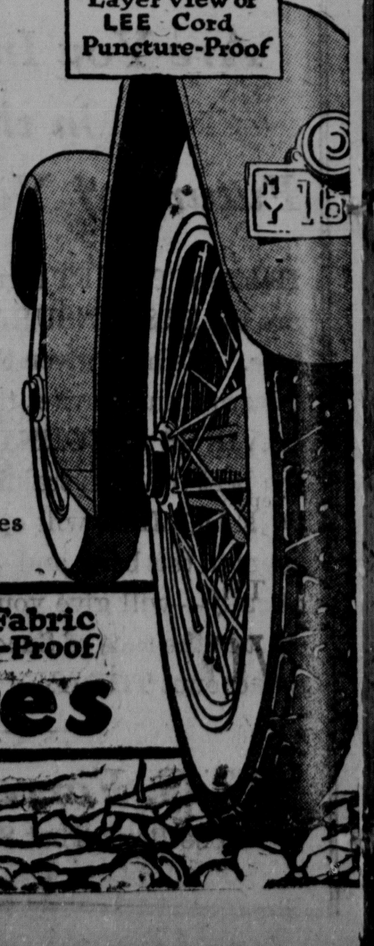

Know, in advance, *exactly* what your tire and tube bills will be for the next twelve months.

In addition—you save time, temper and the annoyance of changing tires on the road.

CHICAGO U. WILL PLAY PRINCETON

Two Schools Will Clash in 1921 and 1922—First Gome to be Played at Princeton Next Year.

Chicago, Sept. 25.—All doubt of the 1921-22 series between the Princeton and Chicago football teams not being arranged has been removed by the announcement that the first game between these two universities will be played at Princeton, N. J., on Saturady, October 22, 1921.

Coach A. A. Stagg of the University of Chicago, wwho has so energetically and successfully attended to the Maroon end of negotiations, in expressing his warm appreciation of the possibilities of these contests, says:

"Princeton will find in the University of Chicago a good high-class competitor with definite ideals of sportsmanship and I haven't any doubt that Chicago will find in the Easterners the same sort of a competitor.

"Undoubtedly Chicago and the West will to a certain extent get some benefit from Princeton and the East. It is undeniably true that both will find each is made of the same sort of stuff and that their meetings will result in a mutual admiration for one another. And of course that cannot fail to react pleasantly. If the East finds that the Western boys are high-grade competitors and sportsmen, as the West will find Western boys, there will develop a mutual respect for one another which will be extended to the body politic."

Chicago has met four eastern institutions on the gridiron. These were Pennsylvania, Cornell, Brown and West Point. The Maroons played home-and-home series with the first two, which makes the Princeton series the third with eastern teams.

The first series, with Pennsylvania in 1898, 1899, 1900 and 1901, ta the Westeners, the scores being 11-23, 5-5, 0-41, and 0-11 in favor of Pennsylvania. In 1899 Chicago played its first game with Cornell winning 17-6. The Cornell series ran from 1908 to 1911. The two teams broke even. The first two years they tied at 6-6 in each game. Then Cornell beat Chicago 18-0 and in 1911 Chicago defeated Cornell 6-0.

The games with Brown University were both played at Chicago, in 1899 and 1900. The first went to Chicago 17-6, but Brown came back strong the next year and beat the Maroons 11-6. Chicago's only remaining encounter with the East yas in 1903, when West Point beat the westerners in a desperate battle 10-6.

Champaign, Ill., Sept. 25.—Tom Harshbarger, pitcher for the Champaign All-Star team, broke his right arm three inches above the elbow this afternoon while throwing a ball. The All-Stars were playing a picked team from the University of Illinois on Illinois field.

Do You Know

—That a tire dealer often makes a larger profit on the sale of a cheap tire than he makes on a good one?

—When you stop to consider the difference in the price to you between cheap tires and good ones that certainly indicates an even greater difference in the price to the dealer, and the manufacturer who makes the cheap tire cannot afford to build it of anything but cheap material.

—A price bargain therefore is nothing more or less than the name indicates. The only tim eit costs you less is at the actual moment of purchase. You cannot reasonably expect to get as much for your money when you buy goods made of cheap material, as when you get the best.

—We sell **GOODYEAR TIRES** and **TUBES** because they represent true economy. Last year and the year before more people rode on **GOODYEAR TIRES** than on any other kind. It's the same this year. It will be true next year and the year after.

JACKSONVILLE WINS FROM BEARDSTOWN

Defeat Visitors by Score of 7 to 0 in Opening Game of Season—Hunt Scores Touchdown With Thirty Yard Run in Second Period—Heat Bothers Players.

Palmer Hunt, playing his first high school game of football, won the opening game of the season for Jacksonville from Beardstown on Illinois field Saturday afternoon by running thirty yards for a touchdown.

In making the run Hunt bowled over four of the Beardstown tacklers and placed the ball squarely back of the goal posts. One of the Beardstown men was compelled to leave the game because of Hunt's effective work.

The day was anything but propitious for football. The mercury was hovering around 90 in the shade and both players and spectators suffered from the heat. Despite this, the players of both teams played with a lot of "pep" and the game was remarkably fast for an opening contest.

Coach Mitchell sent a likely looking squad on the field to line up for the first whistle. They looked mighty good to us, and when the rough spots are worked out the coach is going to have a mighty nifty football team.

When it is considered that the men have only been working two weeks and that Coach Mitchell has changed greatly the style of play the old men were used to, the team's showing was remarkable.

Every man deserves credit for giving the best that was in him at all times. The line with but few exceptions held well and when Beardstown threatened to make a first down the men braced and took the ball or forced a kick.

The backfield looked especially good. Their running of interference is not polished as yet but that will come with practice and the playing of actual games.

Alexander ran the team with good judgment and also carried the ball well. H. Cockin tore up the visitors' line time and again and Hunt and Struck circled the Beardstown ends in good shape.

At the opening of the game Jacksonville kicked to Beardstown and soon compelled them to kick. Both teams were penalized several times during the first quarter for offside playing. The ball passed over several times during the quarter but the playing was all in Beardstown's territory. Just before the quarter ended Beardstown kicked and Jacksonville blocked the ball but Beardstown recovered it.

Hunt Scores Touchdown.

At the beginning of the second quarter Beardstown tried the line but could not gain and Jacksonville took the ball on downs. After making first down Beardstown held and Jacksonville tried a drop kick that went wild.

With the ball on her 35-yard line, Beardstown fumbled and Jacksonville got the ball. After gaining five yards on line plays, Hunt was given the ball and skirted Beardstown's right end for a touchdown. On the way to the goal line Hunt straightarmed four Beardstown tacklers, putting one of them out of the game for the afternoon. Lewis kicked the goal, making the score 7 to 0.

Beardstown kicked to Jacksonville at the beginning of the third quarter. Jacksonville carried the ball steadily down the field to Beardstown's territory but lacked the punch because of the heat and Beardstown's defense stiffened and the ball went over. Beardstown had made first down when time was called for the end of the half.

Beardstown started the fourth period by making first down on line plays. Jacksonville held and Beardstown kicked to Jacksonville's fifteen yard line, the first time the ball had been the local's territory. The ball passed over several times, being in Jacksonville's possession when the game ended. The lineup:

Jacksonville—Lewis, le.; Gard, (capt.), lt.; G. Cockin, lg.; Hackett, c.; E. Arnold, rg.; Bray, rt.; Reynolds, re.; Alexander, qb.; [illegible] lb.; Arter-Struck, rh.; H. [illegible]n, fb.

Beardstown—O'Neal, le.; Allen, lt.; Laughary, lg.; Dever, c.; Stewart, rg.; Wright, rt.; Townsend, re.; Green qb.; Peters, lh.; Anderson, rh.; Kennedy (captain), fb.

Referee—Larson, Moline High. Umpire—Barnes, Illinois College. Headlinesman—Andrew, Illinois College. Timers—Shafer, Jacksonville High; Hyatt, Beardstown High. Time of quarters, 10 minutes.

HARVARD DEFEATS HOLY CROSS 3 TO 0

CAMBRIDGE, Mass., Sept. 25, held —Harvard's football team was held by Holycross to a single field goal and won 3 to 0, in the opening gome of the season today. Harvard started with some fair rushing plays and with the aid of a Hollycross fumble carried the ball to the visitors seven yard line. Here Buell dropped an easy field goal from the 18-yard line.

After trying in vain to gain thru plunges thru center and outside of tackle, Holycross switched to a forward pass in the last quarter and the first heave placed the ball squarely in a Harvard player's hands. This seemed to take the punch out of the visitors' offensive and the game ended with the ball on their three yard line.

WHITE SOX DEFEAT CLEVELAND 5 TO 1

Claude Williams Held the Indians to Five Hits — Joe Jackson Has Great Day at Bat Securing a Double, Single and a Home Run Drive.

CLEVELAND, O., Sept. 25.—Chicago defeated Cleveland today by a score of 5 to 1 taking two out of the three games in the present series and cutting Cleveland's lead to one-half game in the hot race for the American League championship. A record breaking crowd, estimated at 33,000 witnessed the game, overflowing the playing field except in a small space in center field.

Claude Williams the visitors' lefthanded twirler pitched masterly ball holding the Indians to five hits. At bat he contributed a double and a single. He had the locals at his mercy except in the third inning when Cleveland scored its only run on Sewell's double and two long flies. Cleveland made three of its five hits in this inning Evans and Wambsganns getting singles. Cleveland batters popped the ball in the air thruout the game, Chicago players getting only four assists the first one in the sixth inning, against 21 for Cleveland.

The Cleveland team left tonight for St. Louis where they play tomorrow.

Chicago plays Detroit at Chicago tomorrow.

Joe Jackson made two doubles and a home run, but he made many enemies by his action in the fifth inning while running out his circuit hit. As the crowd cheered his effort, he made an insulting gesture as he rounded third base and repeated it as he crossed the plate. He was booed and jeered the remainder of the game, thousands of former soldiers who are here to attend the American legion convention shouting "shipyard!" at him.

NEW YORK HANDS BROOKLYN SHUTOUT

Brooklyn, Sept. 25.—New York won the first game of the series that ultimately will decide the championship of the National league with Brooklyn today. The score 8 to 0 resulted from consistent hitting by the Giants and good pitching on the part of Barnes, backed up by wonderful fielding support.

The game was played under world's series conditions with an attendance that taxed every bit of available space at Ebbetts field. The gates were closed to all except those holding reserved seats an hour before the game started. Thousands were turned away. Notwithstanding the defeat today Brooklyn needs only to win two more games to clinch the pennant and this can be accomplished by taking the two from New York, or one from the Giants and the final game to be played with Boston.

New York scored today in four innings and made at least one hit in every inning.

Thescore:

SISLER STILL IN LEAD IN BATTING

Has Good Chances of Carrying Off Honors This Season—Speaker Second and Joe Jackson Third.

CHICAGO, Sept. 25.—As the major league clubs swing into the final two weeks of the pennant race, George Sisler, star first baseman with St. Louis, seems certain of carrying off the 1920 batting championship of the American League.

Sisler, according to figures compiled today, is showing the way with an average of .405, with Tris Speaker of Cleveland six points behind him. Joe Jackson of Chicago is in third place with .381 and Eddie Collins, captain of the Chicago club, fourth with .371. The averages include games of Wednesday.

"Babe" Ruth, the home run monarch, who went homerunless for a week, failed to shake off his batting slump, but managed to cling to fourth place in the list of leaders with an average of .367, altho he made only one hit in six games.

Rice of Washington is in no danger of being deposed as the leading base stealer. He has fifty-five thefts to his credit, while Sisler is next in line with thirty-seven.

Other leading batters: Jacobson, St. Louis, .346; Rice, Washington, .341; Judge, Wasnington, .330; Tobin, St. Louis; .338; Weaver, Chicago, 337; Felsch, Chicago, .334; Muesel, New York, .338; Cobb, Detroit, .327.

The scramble for the batting championship of the National League has developed into a tight race between Roger Hornsby of St. Louis and Nicholson of Pittsburgh with Hornsby topping the league with .365. Nicholson who lead the race a week ago, is a point behind the St. Louis slugger. Young of New York is third with .352 and Roush of Cincinnati, fourth with .340.

Cy Williams of Philadelphia, the leading home run hitter of the league, connected with another four base drive, bringing his total up to fifteen. In base stealing Max Carey of Pittsburgh continues to show the way with a total of forty-eight. Other leading batters:

J. Smith, St. Louis, .323, Wheat, Brooklyn, .325; Williams, Philadelphia, .319; Scott, St. Louis, .318; Hollocher, Chicago, .318; Konetchy, Brooklyn, Fournier, St. Louis, .309.

Wilbur Good of Kansas City, batted his way to second place in the race for the American Association championship, as a result of crashing out fourteen hits in his last seven games. He has an everage of .333, while Hartley of Columbus continues to top the league with .351. The averages include games of Wednesday.

Bunny Brief of Kansas City and Hargrave of the championship St. Paul club are again tied for honors in home run hitting, each having twenty-two. In base stealing, Rapp, of St. Paul, went into a tie with Dressen, his teammate, each having 46 thefts to his credit.

Other leading batters: Rondeau, —Minneapolis, .333; Hargrave, St. Paul, .331; Tincup, Louisville, .331; Rapp, St. Paul, .327; Wickland, Toledo, .327; Kirke, Louisville, .326; Miller, St. Paul, .322; Brief, Kansas City, 316.

Final averages of the Western League show Carl East of the Wichita club as the 1920 batting champion. In 93 games East polled 123 hits for an average of .377. Yaryan, a teammate, finished in second place with .357. Yaryan also was the leading home run hitter, having bagged —forty-one. Lee of Omaha, outdistanced the league in base stealing, finishing the season with thirty-nine. Other leading batters:

Tierney, Tulsa, .335; Bogart, Joplin, .332; Beck, Wichita, .332; Walker, St. Joseph, 331; Lindimore, Oklahoma City, .330; Pitt, Oklahoma City,, .326; Platte, Omaha, .314; Moeller, Des Moines, .311.

Harper of Little Rock won the 1920 batting championship of the Southern Association with an average of .346, according to final averages released today. Carroll of Memphis, who lead the league in base stealing with 56, was runner-up in hitting with an average of .336. Miller of Little Rock was the leading home-run hitter with nineteen. Other leading batters:

McLarry, Memphis, .325; Miller, Little Rock, .322; Burnhart, Birmingham, .322; Bernsen, Birmingham, .320; Ellis, Birmingham, .316; Burke, Nashville, 315; Griffith, Birmingham, .304; Gilbert, New Orleans, .301.

INDIANA UNIVERSITY SMOTHERS FRANKLIN

Your Tire Bills

YOU can save the price of from four to seven inner tubes this year.

Put this money in your pocket by fitting out with Lee Puncture-Proof Tires—extra heavy, finely made tires, road-proofed with the three patent disc-layers, a distinctive Lee feature, absolutely unpuncturable yet pliant and "frictionless."

Your saving in tubes alone will bring down the cost of Lee Puncture-Proofs to about that of ordinary tires.

Put Lee Puncture-Proofs on your car.

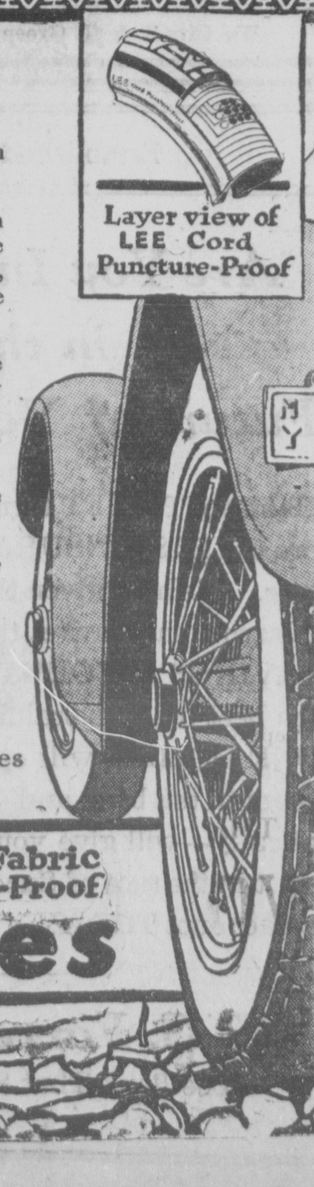

Know, in advance, *exactly* what your tire and tube bills will be for the next twelve months.

In addition—you save time, temper and the annoyance of changing tires on the road.

CLEVELAND'S LEAD CUT TO HALF GAME

NEW YORK, Sept. 25.—The Cleveland American's lead was shortened to a half game today when Chicago won the deciding contest of the three game series with the Indians.

New York sliced a game off the lead of the Brooklyn Nationals with the Superbas four games ahead the Giants' only hope is in taking all four remaining games to be played with the league leaders. In the American race Cleveland can drop two of its eight games to be played and the best Chicago could obtain by winning five straight would be a tie. The New York Yanks are three games behind the Indians and with only four to play, are still a mathematical possibility for first place, but would have a difficult task even in capturing second.

RETURNS FROM VISIT.

Mrs. J. A. Ayers has returned home after a seven weeks' absence. Mrs. Ayers spent part of the time at Holland, Mich., and the remaining weeks were spent with her daughter, Mrs. Black, and her son, Wilfred, in Chicago.

CITY AND COUNTY

Frank Long of Arcadia was transacting business in this city Saturday.

William Sargent of Markham was a caler in town yesterday.

Mr. and Mrs. Carl Newport returned Saturday from a week's visit with relatives near Champaign and Mattoon.

Clifford James, Joseph Smith, Joseph Ornellas, Murray and Dorsey Martin and James Martin were city callers from the north part of the county yesterday.

James Ranson helped represent Lynnville in the city yesterday.

George Craig and Samuel Henry were city callers from Woodson yesterday.

James McGrath and Len Crouse of Murrayville came up to the city yesterday.

Dr. A. E. Obermeyer was down to the city from Arcadia yesterday.

Miss Sylvia Piper of the Elt Bridge Co., is visiting her parents, Mr. and Mrs. Allan Piper of near Winchester.

W. R. Sykes came to this city Saturday and his wife, who has been a patient at Passavant hospital accompanied him to their new home in San Deigo, Calif.

The meeting of the Woman's Foreign Missionary society of Centenary church has been postponed until one week from Friday, Oct. 1.

HALL'S CAFE PASSES TO NEW OWNERS

R. J. Birnbaum and Daniel Moore of Springfield Buy Well Known Establishment.

Robert Birnbaum and Daniel Moore, both of Springfield, yesterday purchased Hall's cafe on West Morgan street, and have already entered into ownership. The deal has been pending for a number of days but the details were not concluded until Saturday. Then new proprietors returned to Springfield Saturday afternoon to make some arrangements for their removal here and will be at the cafe tomorrow.

Mr. Birnbaum and Mr. Moore are brothers-in-law and the latter has had ten years' experience in John R. Thompson restaurants. Both men come to Jacksonville with fine recommendations and will no doubt become desirable additions to the citizenship of Jacksonville.

Mr. Hall, who has spent all his life in Morgan county, has been proprietor of the cafe for the past ten years, and has done an excellent business. The fact that the work was so confining and was proving too much for his strength was what led to the sale. Mr. Hall expects to take a rest of several months before engaging in other business. He is properly accounted as one of the successful and substatial citizens of Jacksonville and his many friends will be glad to know that he has no thought of leaving the city.

Round Oak Heating Stove

Sold This Week

This is quite an offer, we know, but we are going to do it just the same.

Round Oak Heating Stoves

Your examination of Round Oak Heating Stoves will show that each of them possess very many individual features, for instance

Round Oak Seamless One Piece Base

The first and most important feature to discover in a stove of your choice, is its ability to hold fire over night. Almost any heater will do this for a short time, but the expansion and contraction of their two piece bases in time permit the stove putty to drop out, air creeps in these operings, and keeps the fire stimulated after you have checked it. But Round Oak Bases are moulded in one piece, absolutely guaranteeing you air tight construction.

Look Into the Distinctive Round Oak Fire Pot Construction

This is radically different from all other makes. Most of the heating stoves you examine have but one fire pot, which in a very short time burns red and becomes unsightly. Also bear in mind that while one piece fire-pot construction may render reasonable service with soft coal it is not a success when burning hard coal.

Round Oak Double Fire-Pot Construction

Enables you to burn successfully soft coal, hard coal, wood or cobs, with uniformly satisfactory results. That is why the great Round Oak Heater is called the all fuel heater.

Partial Payment Terms

You do not have to have all the cash to have a genuine Round Oak Heater in your home. A small payment down and pay each week will do it.

WINCHESTER MEN MADE AN INSPECTION TRIP

High School Board Members Inseptc School Touse at Rockbridge—Young Funeral Held Saturday — Other Winchester Notes.

Winchester, Sept. 25.—Supt. C. W. Smith, George Peak, William Wainright and C. E. McDonald of the high school board were visitors in Rockbridge Saturday. They went to inspect a school house there.

Mrs. J. C. Grout arrived home Friday from Grand Forks, North Dakota, making the trip by automobile. Mrs. Grout was called there many weeks ago by the illness and death of her father, Dr. Irwin.

Mr. and Mrs. Mack Young of Jacksonville called on relatives and friends here Saturday.

A public sale of the household goods of the late Mrs. Mary Glossop was held at her home on Saturday afternoon. The sale was largely attended and satisfactory prices were realized.

The funeral of Mrs . James Young was held at 2:30 p. m. from the late home in the northwest part of town Saturday. Rev. W. B. Morris was in charge of the services, which were of a very impressive character. Music was furnished by Mrs. Claude Wisdom, Mrs. John Holt, Mrs. Bert Coultas, Miss Pearl Wilson and Newton Gillham.

The beautiful floral tributes were in charge of nieces of the deceased and the pall bearers were relatives. Interment was in Winchester cemtery.

County Clerk McClure issued marriage licenses Saturday to Harry G. Reuter of Winchester, Miss Lois Batley of Bluffs; Orville Lee Hayes, Mancehster and Alta May Day, Alsey.

Miss May Ryan returned home Saturday from an extended visit in Wisconsin, Chicago and Moline. Miss Alice Olson of the latter place accompanied her here for a visit. Mrs. John Davis of Jacksonville is also a guest at the Ryan home.

A CHEAP ICE HOUSE.

Charles Wood of Pisgah precinct says he is the architect of a cheap and satisfactory ice house. He builds it four feet below surface and six above. The walls he made 12x18 of baled straw and both inside and out .e placed against the straw fence wire and concrete, three parts sand and one cement, an inch thick. For the purpose it took twenty-five sacks of cement. The roof he made with two by fours two feet apart and these he covered with concrete also. He had a small gable for ventilation. The door was placed at a suitable height for the discharge of ice from the rear end of a wagon. He also had a door in the gable for the admission of ice. He hays the affair will hold enough ice for several families. His neighbors fill the ice house for the privilege of using ice from it in the summer. They keep melosn and other fruits on the ice a long time.

Mr. Wood will be glad to show the structure to any one who cares to call at his farm.

WANTED: A CAFETERIA

A well known lady of the county remarked yesterday to a Journal reporter that she wished the matter of a cafeteria in the city could be urged. She was firm in the belief that it would be a good investment. She said she liked to get her meal promptly and see before hand what she was going to eat and the cafeteria did both those things.

She had no fault to find with the restaurants of the city which are surely well managed and few complaints are heard of them but still her heart went out to the cafeteria idea and she said she wished the Journal would bring up the matter and see if any one would try the experiment.

LOCAL MEN BACK FROM SAINT PAUL

Took Part in Sociability Tour to St. Paul—Big Attendance at Mississippi Valley Highway Convention.

W. J. Brady, T. M. Tomlinson, W. E. Sullivan, C. W. Cully and Joshua Vasconcellos have returned from their automobile trip to St. Paul, where they went to attend the convention of th Mississippi Valley Highway Association. These Jacksonville men started in Mr. Sullivan's car from the Dunlap hotel Sept. 17 at 8:25 a. m. This car was one of twenty in the party and other cars joined in before the destination was reached. At various cities along the line the travelers were accorded special courtesies. A band met them at a point betwen Arenzville and Beardstown and watermelons were served. In other towns refreshments were served and in a number of instances the travelers were entertained at dinner or luncheon.

Banquet at Burlington

Burlington was reached at 6 p. m., the first day, a distance of 122 miles being covered. A banquet was held at the Burlington hotel at 8 p. m. and everything was done by the people of that city to make the visitors feel that they were welcome.

The following morning after visiting some of the Burlington parks the tourists left for Mediapolis and then drove on to Columbus Junction reaching Iowa City about 2. There various courtesies were extended by the citizens.

Oelwein, Iowa, was reached at 7:13 p. m., the distance covered for the day being 164 miles. The party left Oelwein at 7:30 the next morning and after various stops reached Pine Island, having traveled 145 miles. There the party attnded an evening church service. Monday morning a start was made at 7:30 o'clock. St. Paul, a distance of 66 miles, was reached in about 2 hours' time. The total distance covered from Jacksonville to St. Paul was 506 miles.

The Jacksonville men attended some of the convention sessions which they found very interesting. They also enjoyed visiting various places about St. Paul which they found a really progressive city. Carl H. Weber of Jacksonville was also in attendance at the convention but was not one of the automobile party.

Traveled Over 1,000 Miles

The return home was begun Wednesday morning at 8 o'clock and the run for the day was 198 miles to Waverly . Thursday morning the travelers started at 5:35 o'clock and drove to Burlington. Friday morning at 5:50 they started from Burlington and arrived at an early hour at Keokuk, where they inspected the big dam. They reached Jacksonville in the evening after a day's travel of 157 miles. The speedometer for the whole trip registered 1084 miles. The men in the Jacksonville group were congenial friends and the trip was one which all thoroly enjoyed.

Morgan County Sunday School association held a regular meeting in the basement of Ayers National Bank Saturday noon. Those present were: Pres. Fred J. Schofield, A. A. Curry, Mrs. Chas. Hopper, Mrs. R. R. Stevenson, Mrs Nellie Crain, Wilbert Hauck, Arthur Swain, J. K. Cunningham, A. C. Rice and J. S. Findley.

Regular business was transacted and the recommendations and bills from the Woodson convention were considered and passed on. The chairman of the various divisions who were present reported and assured the association of aggressive action in their division.

It was decided to hold a precinct convention in Lynnville Sunday afternoon, October 3. A program will be announced later.

Recommendations Made.

Recommendations adopted by the Morgan County Sunday School association at its convention in Woodson, Ill., September 10, 1920, were as follows:

We recommend that each member of the Sunday School be asked to devote at least fifteen minutes to the reading of God's Word every day.

We recommend that because there are so many influences brought to bear on the children and the young people, leading them away from the home and the church, that the old time family altar be established and maintained in every Sunday school home.

We recommend that an Institute be held in each one of the county precincts by a state officer and that a committee of five be appointed in each school to make a house to house canvass and ascertain from each person their school preference and urge them to attend the school precinct of their choice.

We also recommend that the precincts known as West Jacksonville, be incorporated with the Chapin precinct and supervised by the Chapin precinct officers.

We further recommend that every Sunday school in the county pay its quota of five cents per enrolled member to the county treasurer before April 1st, 1921, and that two hundred and fifty dollars be raised in this convention for next years work, and this money $250.00 be used in Morgan county.

The following motion was presented by Mr. DePew and incorporated in the recommendations:

1. That the county accept its state apportionment of five cents per enrolled member.
2. That we adopt a budget of five cents per enrolled member of all schools to be used in county work, promoting Young People's, Children's and other divisional work.
3. That a county business superintendent be elected who shall be responsible with the executive officers of the county for raising the difference between the amount paid by the schools, and the total budget of items land.
4. That each precinct be asked to elect a business superintendent to raise funds by personal solicitation of individuals in his precinct.

A. A. Curry,
J. K. Cunningham,
Arthur Swain,
Recommendation Committee.

LEGINS WORK AT WHITE HALL

Rev. J. O. Kirkpatrick was in the city Saturday from White Hall for a few hours. Today he will enter upon his work as pastor of the Methodist church in White Hall. The church there has a large membership and is in a flourishing condition.

It will probably develop further under Mr. Kirkpatrick's pastorate as he is accounted one of the strong members of the conference. As a resident of Jacksonville he has measured up fully to duty as a citizen and minister and will be a valuable addition to the ranks of White Hall citizenship.

WINCHESTER MEN MADE AN INSPECTION TRIP

High School Board Members Insepte School Touse at Rockbridge—Young Funeral Held Saturday — Other Winchester Notes.

Winchester, Sept. 25.—Supt. C. W. Smith, George Peak, William Wainright and C. E. McDonald of the high school board were visitors in Rockbridge Saturday. They went to inspect a school house there.

Mrs. J. C. Grout arrived home Friday from Grand Forks, North Dakota, making the trip by automobile. Mrs. Grout was called there many weeks ago by the illness and death of her father, Dr. Irwin.

Mr. and Mrs. Mack Young of Jacksonville called on relatives and friends here Saturday.

A public sale of the household goods of the late Mrs. Mary Glossop was held at her home on Saturday afternoon. The sale was largely attended and satisfactory prices were realized.

The funeral of Mrs. James Young was held at 2:30 p. m. from the late home in the northwest part of town Saturday. Rev. W. B. Morris was in charge of the services, which were of a very impressive character. Music was furnished by Mrs. Claude Wisdom, Mrs. John Holt, Mrs. Bert Coultas, Miss Pearl Wilson and Newton Gillham.

The beautiful floral tributes were in charge of nieces of the deceased and the pall bearers were relatives. Interment was in Winchester cemtery.

County Clerk McClure issued marriage licenses Saturday to Harry G. Reuter of Winchester, Miss Lois Batley of Bluffs; Orville Lee Hayes, Mancehster and Alta May Day, Alsey.

Miss May Ryan returned home Saturday from an extended visit in Wisconsin, Chicago and Moline. Miss Alice Olson of the latter place accompanied her here for a visit. Mrs. John Davis of Jacksonville is also a guest at the Ryan home.

A CHEAP ICE HOUSE.

Charles Wood of Pisgah precinct says he is the architect of a cheap and satisfactory ice house. He builds it four feet below surface and six above. The walls he made 12x18 of baled straw and both inside and out ..e placed against the straw fence wire and concrete, three parts sand and one cement, an inch thick. For the purpose it took twenty-five sacks of cement. The roof he made with two by fours two feet apart and these he covered with concrete also. He had a small gable for ventilation. The door was placed at a suitable height for the discharge of ice from the rear end of a wagon. He also had a door in the gable for the admission of ice. He hays the affair will hold enough ice for several families. His neighbors fill the ice house for the privilege of using ice from it in the summer. They keep melosn and other fruits on the ice a long time.

Mr. Wood will be glad to show the structure to any one who cares to call at his farm.

WANTED: A CAFETERIA

A well known lady of the county remarked yesterday to a Journal reporter that she wished the matter of a cafeteria in the city could be urged. She was firm in the belief that it would be a good investment. She said she liked to get her meal promptly and see before hand what she was going to eat and the cafeteria did both those things.

She had no fault to find with the restaurants of the city which are surely well managed and few complaints are heard of them but still her heart went out to the cafeteria idea and she said she wished the Journal would bring up the matter and see if any one would try the experiment.

LOCAL MEN BACK FROM SAINT PAUL

Took Part in Sociability Tour to St. Paul—Big Attendance at Mississippi Valley Highway Convention.

W. J. Brady, T. M. Tomlinson, W. E. Sullivan, C. W. Cully and Joshua Vasconcellos have returned from their automobile trip to St. Paul, where they went to attend the convention of th Mississippi Valley Highway Association. These Jacksonville men started in Mr. Sullivan's car from the Dunlap hotel Sept. 17 at 8:25 a. m. This car was one of twenty in the party and other cars joined in before the destination was reached. At various cities along the line the travelers were accorded special courtesies. A band met them at a point betwen Arenzville and Beardstown and watermelons were served. In other towns refreshments were served and in a number of instances the travelers were entertained at dinner or luncheon.

Banquet at Burlington

Burlington was reached at 6 p. m., the first day, a distance of 122 miles being covered. A banquet was held at the Burlington hotel at 8 p. m. and everything was done by the people of that city to make the visitors feel that they were welcome.

The following morning after visiting some of the Burlington parks the tourists left for Medianolis and then drove on to Columbus Junction reaching Iowa City about 2. There various courtesies were extended by the citizens.

Oelwein, Iowa, was reached at 7:13 p. m., the distance covered for the day being 164 miles. The party left Oelwein at 7:30 the next morning and after various stops reached Pine Island, having traveled 145 miles. There the party attnded an evening church service. Monday morning a start was made at 7:30 o'clock. St. Paul, a distance of 66 miles, was reached in about 2 hours' time. The total distance covered from Jacksonville to St. Paul was 506 miles.

The Jacksonville men attended some of the convention sessions which they found very interesting. They also enjoyed visiting various places about St. Paul which they found a really progressive city. Carl H. Weber of Jacksonville was also in attendance at the convention but was not one of the automobile party.

Traveled Over 1,000 Miles

The return home was begun Wednesday morning at 8 o'clock and the run for the day was 198 miles to Waverly. Thursday morning the travelers started at 5:35 o'clock and drove to Burlington. Friday morning at 5:50 they started from Burlington and arrived at an early hour at Keokuk, where they inspected the big dam. They reached Jacksonville in the evening after a day's travel of 157 miles. The speedometer for the whole trip registered 1084 miles. The men in the Jacksonville group were congenial friends and the trip was one which all thoroly enjoyed.

COWBOY PREACHER HAS MISSION IN BUENOS AIRES

World Wanderer Now Saving Souls in Foreign Country.

BUENOS AIRES.—On a street in Buenos Aires which might be called the backwash of the world judging from the human derelicts cast up from every stream and every land, a North American cow puncher of the old West is conducting a rescue mission where hungry children are fed and tired souls are comforted. He is John Calvert de Bohun, who says he "was born on the hurricane deck of a cayuse" in New Mexico.

Cowboy, jockey, wanderer and finally ordained minister, Bohun's life has been such as to make him one with the dead wood that drifts into his mission, as he tells his story, and his redemption to bodily and spiritual health a parallel to that of some of his people. There was a time, he says, when American whiskey was no longer strong enough for him, so that he satisfied his appetite with Chinese whiskey, which is like drinking mixed turpentine and banana oil.

But thru the years came glimpses to him of something better. A touch of remorse in Australia, a good example in Europe, the sight of a woman who reminded him of one 'he used to know," the influenee of Father Daien, who gave his life to the lepers of Hawaii and who was so loved that there was scarcely a dry eye in grog shop or ship's cabin from Manilla to Melbourne when he died, such things made him wonder. And finally, worn and world-knowing, when he drifted back to that New Mexico from which he had started and found 'Tom the Devil" preaching instead of running the old gambling game, and later saw others follow in his steps, Bohun says that the light came to him. He became a minister.

Mission Formerly Masonic Lodge.

Bohun's mission is located in a building something in appearance like San Antonio's Almo, and with a history as eventful as those who repair to it. Built for a Masonic lodge many years ago, it has been variously dance hall, gambling house, headquarters of the Black Hand in Argentina and is now a combination church, school, orphn's home and first aid to the morally injured.

In the room where once women and men drank and danced, now there are religious services in Spanish and between times children, seldom less than 100 of them, at lunch or supper.

Children of every race and religion are fed there. Other work of the mission is with lepers, and with old men and women. The mission of which Bohun took charge about four years ago, is not maintained by any organization, but is held together by free will subscriptions.

When Bohun talks with a visitor, particularly with an American who knows the West, his references to his work are mingled with spontaneous tales of "hard riding and hard shooting men." Of John Wesley Harding, for instance, the frock-coated gambler of El Paso, who Bohun says had killed 14 men, but "was every inch a gentleman and always killed with regret"; of Calamity Jane, whose story was bound up with the fight between law and things as they were that desolated Tombstone, Arizona; of Morose, king of cattle thieves; of Wild Bill Hikok, who met his end at Dodge City; and of many more who made the West a place of romance. Minister tho he is, still a cowboy, bent on getting his herd safe into the final round-up.

WILL INVESTIGATE HOOF AND MOUTH DISEASE

London — Exhaustive experiments in connection with the study of foot and mouth disease, are to be conducted, it is announced by the ministry of agriculture, on board obsolete warships fitted up as floating laboratories.

The experiments are to be carried out at sea to obviate any risk of the disease spreading from the experimental station. The investigators will include several distinguished foreign scientists and the research may last four years.

The necessity of stamping out the disease, it is officially pointed out, is imperative, if England is to maintain her large cattle exports.

The Westminster Gazette is frankly sceptical about the scheme. "It looks like a brilliant idea for spending money ineffectively,' it says.

FAIL TO PUT ON ENOUGH POSTAGE

Buenos Aires—Failure of the majority of North American manufacturing and exporting concerns to place sufficient postage on the letters they send to Argentina is one of the details which is tending to cause an unfavorable opinion here of American business methods, says the bulletin of the United States Chamber of Commerce in Argentina.

The bulletin is convinced that at least 25 per cent of the letters sent here from the United States bear a two-cent stamp instead of the five-cent postage required. This means that the recipients not only are obliged to pay the additional three cents but a fine imposed by the Argentine postoffice regulations equivalent to the deficiency, or total of six cents. Many circulars and selling letters come with the two-cent stamp and "it may be readily understood how annoying it is to Argentine firms to have their correspondence treated in such a careless manner."

The bulletin also comments upon "the lack of even rudimentary knowledge of geography' shown by some American concerns in addressing letters. It cites the instance of an important letter addressed by the Chamber of Commerce of one of the largest American cities to the stock exchange in "Buenos Aires, Brazil." The ignorance desplayed of the location of a city of nearly 2,000,000 population is "to say the least not especially flattering to our Argentine friends, who are very proud of Buenos Aires as being the metropolis or South America."

CRUISER YANKEE LOST TO NAVY

New Bedford, Mass.—The cruiser Yankee, which was wrecked on Hen and Chickens reef in Buzzard Bay 12 years ago and which sank and was refloated anly to go down again after drifting a few miles, has been finally lost to the navy. Wreckers who have been trying several years to remove the hulk of the sunken cruiser as a menace to navigation have blown it up, and timbers of the old Yankee are now scatteered on the floor of the bay.

The Yankee, which was formerly the coastwise passenger steamer, El Sud, was in transport service during the Spanish American war and was continued on the naval rolls afterward as a cruiser. She went around on Hen and Chickens during a thick fog on the night of September 23, 1908, and slipped off into deep water.

The navy's attempt to float her, made under the direction of Naval Constructor Washington L. Capps, failed, and private bids were called for. As a result, the first notable use of compressed air for marine salvage in this country was made by John Arbuckle, of New York, a sugar refiner. He bought Peary's Arctic ship Roosevelt and made her the headquarters of his operations. After three months work with the compressed air method the Yankee was raised and started in tow for this port.

She ran into a storm during the night, heavy seas thumped her weakened frame and one of the air ports broke. The Yankee went down again off Dumpling Light and, altho the Arbuckle wreckers renewed their efforts, and other salvage outfits did their best to bring her to the top, she stayed there for 10 years before she was blown to pieces.

Cheap Tires are expensive at any price. Buy Pennsylvanias at Brady Bros.' Big Tire Sale, and save money and trouble.

LIGHT THROWN ON PILGRIM FATHERS

LEYDEN, Holland, — New light is thrown on the residence of the Pilgrim Fathers in Holland by three old documents which Professor Eekhof discovered in the archives of Leyden and which he published on the occasion of the Dutch Pilgrim Fathers' celebration here. One of the documents is a contract signed by John Robinson, leader of the Pilgrims, declared to be the only signature of Robinson which has been preserved and this discovery may lead to the identification of other writings by him.

The second document is a letter written by William Bradford a short time before his departure from Holland. He was afterward governor of Massachusetts Bay colony.

The third paper Dr. Eekhof discovered is the last will of Bridget White, John Robinson's wife, and contains a considerable quantity of interesting information about Robinson's household.

Dr. Eekhof has added to his work the facsimiles of the three documents

COME WITHIN THE CREDIT REQUIREMENTS

Washington — Five foreign countries come within the "credit requirement" of section 222 of the revenue act of 1918 which will permit their nationals to be credited with the amount of income tax paid to their own governments in the computation of American income tax, the treasury department has just announced. These countries are Bulgaria, Canada, Italy, Newfoundland and Salvador. The "requirement" is simply that such countries shall credit Americans resident there with the amount of income taxes they have paid to the United States government.

Similar credit requirements of the United States, however, are not satisfied by Argentina, Bahama, Belgium, Bermuda, Bolivia, Bosnia, Brazil, Chile, China, Costa Rica, Equador, Egypt, Finland, France, Great Britain, and Ireland, Guatamala, Herzegovina, India, Jamaica, Japan, Montenegro, Morocco, New Zealand, Nicaragua, Persia, Peru, Portugal, Rumania, Santo Domingo, Serbia, Siam, Sweden, Switzerland and Venezula. Citizens of these countries in the United States are required to pay the full amount of their taxes here.

A citizen of a country not listed by the Bureau is compelled by the regulations to prove that his country satisfies the similar credit requirements in order to escape payment.

COME WITHIN THE CREDIT REQUIREMENTS

Washington — Five foreign countries come within the "credit requirement" of section 222 of the revenue act of 1918 which will permit their nationals to be credited with the amount of income tax paid to their own governments in the computation of American income tax, the treasury department has just announced. These countries are Bulgaria, Canada, Italy, Newfoundland and Salvador. The "requirement" is simply that such countries shall credit Americans resident there with the amount of income taxes they have paid to the United States government.

Similar credit requirements of the United States, however, are not satisfied by Argentina, Bahama, Belgium, Bermuda, Bolivia, Bosnia, Brazil, Chile, China, Costa Rica, Equador, Egypt, Finland, France, Great Britain, and Ireland, Guatamala, Herzegovina, India, Jamaica, Japan, Montenegro, Morocco, New Zealand, Nicaragua, Persia, Peru, Portugal, Rumania, Santo Domingo, Serbia, Siam, Sweden, Switzerland and Venezula. Citizens of these countries in the United States are required to pay the full amount of their taxes here.

A citizen of a country not listed by the Bureau is compelled by the regulations to prove that his country satisfies the similar credit requirements in order to escape payment.

LYCEUM COURSE AT WAVERLY THIS WINTER

Season to Open Oct. 26 — Approaching Marriage is Announced — Other Waverly News.

Waverly, Illinois, Sept. 26.—Waverly will have a Lyceum course this winter, to be held at the Bijou theater. The season will open Oct. 28. The talent has been secured through the Brown Lyceum Bureau.

The approaching marriage of Miss Lennie Hodgerson to Mr. Al Deiter, both of Waverly was announced at a picnic given by the Woman's Bible class of the Baptist Sunday school at the home of Mrs. William Schreiber, the wedding to take place in the early fall.

Rev. F. H. Lathrop, the newly appointed pastor of the M. E. circuit has arrived with his family from Athens.

Miss Goldie Cline has returned from Monmouth where she visited her sister, Mrs. Chas. Turner.

Roy Allen has gone to Chillicothe, Mo., where he will take a business course at Chillicothe business college.

Ray Mitchell returned Friday to Colorado Springs, Colo., after a few days visit here with his parents, Mr. and Mrs. John Mitchell.

Walter Fish of New York City spent a few days here visiting at the home of Mrs. Nellie Bradford.

Miss Nellie Bird of Chicago is visiting at the home of her sister, Mrs. Chas. Teele.

Mr. and Mrs. F. A. Wyle are spending a few days in St. Louis.

Misses Dorothy Kennedy and Helen Crain have gone to Jacksonville to re-enter the Woman's College.

Mr. and Mrs. Robt. McDivitt and daughter, Mildred, have gone to Edinburg, Texas to make their future home.

COLLEGE OF MUSIC

Edith M. Robinson of the College of Music faculty will be the assisting artist at the recital by Jules Falk, violinist, to be given in the music hall, October 8 at 8:15 p. m. The many friends of the college and of Miss Robinson will welcome this opportunity of hearing her in rectital.

The enrollment in all departments of the College of Music is very heavy, and many talented pupils from different parts of the country are enrolled for the degree and certificate courses. Unusual interest is shown in the many theoretical courses, which indicates the serious purpose of the students.

At the opening chapel exercises of the college, Mrs. Forrest, our new voice teacher, sang a group of songs which was received most enthusiastically by the students and many friends of the college who were present. The college considers itself very fortunate in securing Mrs. Forrest for our faculty; her time is very much in demand. Mrs. Forrest will sing at the Grace church morning service today, "These Are They' from Gaul's "Holy City.'

The work of Miss Nelle Mehus of Chicago, our new director of the children's department, is being enthusiastically received. Music Education for Children is presented in the most interesting form, and there is a large enrollment in the classes.

Miss Myrtle Larmore has spent the summer term studying Piono Methods for Children under the well known authority, Mrs. Crosby Adams, who has a summer school in the south.

Miss Moore spent the summer term studying with Mr. Carl Steckleberg, of the University of Nebraska; he is an eminent authority on class methods in violin.

Miss Robinson studied again with Percy A. Grainger, guest teacher at the Chicago Musical College during the summer term.

Rehearsals of the College Orchestra, the Glee club and the Madrigal Club will begin in the near future.

SOLDIER'S FUNERAL TO BE HELD TODAY

The funeral services of John J. Vallery, whose remains arrived Friday night from New York will be held Sunday afternoon at 3 o'clock in the town park of Arenzville. The body was taken to the Williamson Undertaking Parlors where it will remain until one o'clock Sunday afternoonat which time it will be taken under escort of the local post of the Veterans of Foreign Wars and be taken to Arenzville by the way of the Vallery home just east of Arenzville where the American Legion Post of Concord and Arenzville together with the bearers and firing squad will join the funeral escort and proceed to Arenzville Park.

The preaching services in the park will be conducted by the Rev. W. H. Marbach of this city. Music for the occasion will be furnished by a quartet from Arenzville. Members of the Harrison A. Dickson Post of Veterans of Foreign Wars 503 are requested to report in uniform at 1 p. m., this afternoon at Williamson's Undertaking Parlors. Members of the American Legion and other patriotic organizations are invited to attend this service in as large numbers as possible.

All ex-service men having cars and citizens who would like to help are requested to have cars in front of the undertaking parlors at 1 o'clock sharp so that we may take all persons to the service that desire to attend. There will be only a short march of about a quarter of a mile from the park to the cemetery.

MATHIS, KAMM & SHIBE SAY:

Yes, this store is selling fall shoes at the new prices. Strictly high grade shoes still cost money but many medium priced lines are now available. The value of a shoe depends not only on the materials of which it is made, but also on the workmanship, the style and the fit; these things can be determined only by examination and comparison. Call and see them; no trouble to show goods.

Roy Craig has returned from a trip to Peoria to attend a good roads meeting. He found plenty of interest there in the Mississippi Valley trail and hopes for good things from the movement.

ST. LOUIS AUTO PARTY.

Mr and Mrs. A. F. Moberly, Miss Mabel Moberly and Ralph Moberly rode into the city Friday evening on their way home to St. Louis after a journey eastward.

MOTOR WORKS CONCEALS PROFITS

Berlin—A suecial commission appointed by the former ministry of war to audit the books of the Daimler Motor Works has issued a report which charges the firm with concealing profits exceeding 96,000,000 marks.

It is stated that the annual balance sheets of the firm during the four years of war production failed to include more than 81,000,000 marks profit, wwhich is more than tenfold the amount of its capital.

The report states that on the eve of Germany's big spring offensive in 1918 the Daimler company which was one of the country's chief suppliers of war materials threatened to shut down its plant unless the ministry of war awarded it a liberal price and increases.

The plant was then placed under military supervision and its director removed from office but, the commission reports, Captain Gross, who was supposed to supervise the military control, was elected into the company's directorate and entrusted with the management of the plant.

Blackheads *are a confession*

Blackheads are caused by excessive oil collecting dirt in the pores of the skin. Their presence is a confession that you are using the wrong method of cleansing for your type of skin.

To cleanse thoroughly skins liable to this disfiguring trouble, use the following special treatment. Apply hot cloths to the face until the skin is reddened. Then with a rough washcloth work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly, always with an upward and outward motion. Rinse with clear hot water, then with cold—the colder the better. If possible, rub your face for thirty seconds with a *piece of ice*. Dry carefully.

To remove blackheads already formed, substitute a flesh brush for the washcloth in the treatment above. Then protect the fingers with a handkerchief and press out the blackheads.

Keep your skin free of blackheads by the above treatment and gain the clear attractive skin that the regular use of Woodbury's brings.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.

LYCEUM COURSE AT WAVERLY THIS WINTER

Season to Open Oct. 26 — Approaching Marriage is Announcnounced — Other Waverly News.

Waverly, Illinois, Sept. 26.—Waverly will have a Lyceum course this winter, to be held at the Bijou theater. The season will open Oct. 28. The talent has been secured through the Brown Lyceum Bureau.

The approaching marriage of Miss Lennie Hodgerson to Mr. Al Deiter, both of Waverly was announced at a picnic given by the Woman's Bible class of the Baptist Sunday school at the home of Mrs. William Schreiber, the wedding to take place in the early fall.

Rev. F. H. Lathrop, the newly appointed pastor of the M. E. circuit has arrived with his family from Athens.

Miss Goldie Cline has returned from Monmouth where she visited her sister, Mrs. Chas. Turner.

Roy Allen has gone to Chillicothe, Mo., where he will take a business course at Chillicothe business college.

Ray Mitchell returned Friday to Colorado Springs, Colo., after a few days visit here with his parents, Mr. and Mrs. John Mitchell.

Walter Fish of New York City spent a few days here visiting at the home of Mrs. Nellie Bradford.

Miss Nellie Bird of Chicago is visiting at the home of her sister, Mrs. Chas. Teele.

Mr. and Mrs. F. A. Wyle are spending a few days in St. Louis.

Misses Dorothy Kennedy and Helen Crain have gone to Jacksonville to re-enter the Woman's College.

Mr. and Mrs. Robt. McDivitt and daughter, Mildred, have gone to Edinburg, Texas to make their future home.

COLLEGE OF MUSIC

Edith M. Robinson of the College of Music faculty will be the assisting artist at the recital by Jules Falk, violinist, to be given in the music hall, October 8 at 8:15 p. m. The many friends of the college and of Miss Robinson will welcome this opportunity of hearing her in rectital.

The enrollment in all departments of the College of Music is very heavy, and many talented pupils from different parts of the country are enrolled for the degree and certificate courses. Unusual interest is shown in the many theoretical courses, which indicates the serious purpose of the students.

At the opening chapel exercises of the college, Mrs. Forrest, our new voice teacher, sang a group of songs which was received most enthusiastically by the students and many friends of the college who were present. The college considers itself very fortunate in securing Mrs. Forrest for our faculty; her time is very much in demand. Mrs. Forrest will sing at the Grace church morning service today, "These Are They' from Gaul's "Holy City.'

The work of Miss Nelle Mehus of Chicago, our new director of the children's department, is being enthusiastically received. Music Education for Children is presented in the most interesting form, and there is a large enrollment in the classes.

Miss Myrtle Larimore has spent the summer term studying Piono Methods for Children under the well known authority, Mrs. Crosby Adams, who has a summer school in the south.

Miss Moore spent the summer term studying with Mr. Carl Steckleburg, of the University of Nebraska; he is an eminent authority on class methods in violin.

Miss Robinson studied again with Percy A. Grainger, guest teacher at the Chicago Musical College during the summer term.

Rehearsals of the College Orchestra, the Glee club and the Madrigal Club will begin in the near future.

SOLDIER'S FUNERAL TO BE HELD TODAY

The funeral services of John J. Vallery, whose remains arrived Friday night from New York will be held Sunday afternoon at 3 o'clock in the town park of Arenzville. The body was taken to the Williamson Undertaking Parlors where it will remain until one o'clock Sunday afternoonat which time it will be taken under escort of the local post of the Veterans of Foreign Wars and be taken to Arenzville by the way of the Vallery home just east of Arenzville where the American Legion Post of Concord and Arenzville together with the bearers and firing squad will join the funeral escort and proceed to Arenzville Park.

The preaching services in the park will be conducted by the Rev. W. H. Marbach of this city. Music for the occasion will be furnished by a quartet from Arenzville. Members of the Harrison A. Dickson Post of Veterans of Foreign Wars 503 are requested to report in uniform at 1 p. m., this afternoon at Williamson's Undertaking Parlors. Members of the American Legion and other patriotic organizations are invited to attend this service in as large numbers as possible.

All ex-service men having cars and citizens who would like to help are requested to have cars in front of the undertaking parlors at 1 o'clock sharp so that we may take all persons to the service that desire to attend. There will be only a short march of about a quarter of a mile from the park to the cemetery.

MATHIS, KAMM & SHIBE SAY:

Yes, this store is selling fall shoes at the new prices. Strictly high grade shoes still cost money but many medium priced lines are now available. The value of a shoe depends not only on the materials of which it is made, but also on the workmanship, the style and the fit; these things can be determined only by examination and comparison. Call and see them; no trouble to show goods.

Roy Craig has returned from a trip to Peoria to attend a good roads meeting. He found plenty of interest there in the Mississippi Valley trail and hopes for good things from the movement.

DENVER PREPARING FOR MINING VISITORS

Will Entertain Great Convention in History in November—Many Groups in Mining World Plan to be Present.

DENVER, Colo., Sept. 25.—Denver is preparing for one of the greatest mining conventions in history to be held here during the week beginning November 15. Problems, national and international, which have arisen during the past year in the production of the wasting materials of the nation, such as petroleum, coal, metals and lumber, will be considered by 10 national conferences, correlating their work in one final convention, before which the concrete results of all conference will be placed for ratification.

The movement is fostered by the American Mining Congress, which has called its 23rd annual convention in Denver during that week. Correspondence now being exchanged between the mining organization and the National Coal association, the American Petroleum institute and the various group bodies of coal and metal men and lumber associations, indicate that the meeting of the American Mining congress this year will far surpass in industrial importance the previous convention of that organization held at St. Louis last year.

To Standardize Equipment.

For the first time in America, a standardization conference has been called to organize a national propaganda to standardize all mining equipment, safety codes, methods of accounting, labor saving, sanitary and life saving devices.

Three widely known American engineers, Colonel Warren R. Roberts, of Chicago, Charles A. Mitke, of Arizona and Richard A. Parker have signed the invitation. Colonel Roberts was in charge of the standardization of war munitions in Washington during the war. Mr. Mitke is the leader of standardization movements in metal production, and Mr. Parker, for many years the manager of a group of gold producing mines in Africa, was the first to standardize mining under European management.

A group of coal producers, notable among whom is Colonel Daniel B. Wentz, president of the National Coal association, is in charge of arrangements for the conference of coal producers both anthracite and bituminous.

Gold producers of the United States and bankers who are interested in preventing further depletion of the gold reseve are called for a conference for three days. Petroleum men of the western states will assemble at the convention to discuss legislation intended for the protection of the nation from a fuel and power famine. Several hundred users of oil flotation in the recovery of metals are called to consider the possibility of facing several billions in law suits by the Mineral Separation Limited corporation, and to learn of the government's investigation into the methods of that corporation.

The fight for the recovery of $10,0000,000 alleged to be lost in the production of war minerals which the government called for before the armistice, and has since largely repudiated will be the subject of the War Minerals conference. The legislative convention will have before it the reorganization of national and state laws, blue sky alws and employers' liability laws. State officials, legal experts, mining lawyers and mine operators have been invited to its sessions. An industrial conference, at which many national leaders will be present, will discuss questions relating to labor contracts, wages and working conditions. Legislative committees will beappointed at this meeting.

Working Out New Law.

A new law is now being worked out by a committee from the Mining congress, National Coal association, National Industrial conference and other accredited bodies as proposed substitute for the present law. This committee will call together the tax experts of the country to hear its final report and to revise and adopt suitable clauses affecting the wasting industries. Schools of mines and technical schools have been invited to participate in separate conferences, where the subject of enlarged educational methods to meet present day conditions will be discussed.

Not the least important meeting will be the international conference on Mexican-American Industrial relations, which is being called jointly by the National association for the protection of American rights in Mexico and the American Mining congress. Leading officials and business men of both nations have received formal invitations from both bodies.

Franklin K. Lane, formerly secretary of the Interior of the United States, has been invited to act as chairman of the joint conference and assurances have been received from Mexico that distinguished leaders from that country will be present to participate in the organization of a constructive program which, tho unofficial, will be presented to the governments of the United States and Mexico.

TO REGULATE SALE OF INTOXICANTS

Santiago—Agitation in favor of rigorous enforcement of regulations governing the sale of intoxicants and for additional measures of control has been growing recently in Chile.

A campaign has been started to make the Araucanian Indian reserve of Cholchol "dry" following a petition to the government from residents in the district alleging violations of the exisiting laws which prohibit the sale of alcoholic drinks on Sundays and feast days and by persons without license. The petitioners declare peddlers visit the Indians on holidays and during their traditional fiestas, trade liquor for blankets, fowls and cereals with the result that the feasts "degenerate in drunken brawls and much disorder."

Movements also have been started by workers in the nitrate and coal fields in favor of prohibiting the sale of liquor on pay days.

"ELEEMOSYNARY" TRIPS UP SPEAKERS

WASHINGTON. — Those who consider themselves expert spellers may be interested in the result of a series of old-fashioned spelling bees held in a popular sumer resort of North Carolina to determine the words which are most difficult for the person of average education to spell.

By almost unanimous consent, "eleemosynary" was given the speller position, 91 per cent of the contestants meeting disaster upon one or another of the essential vowels. "Connoisseur" wrecked the ambitions of all except those who could be classified under that term itself; "fuchsia" third in terms of difficulty, being followed in order by "tranquility," "fricassee," "consensus," "supercede," "questionnaire" and "periphery."

"Separate," long in disgrace as the most easily misspelled word in the ordinary vocabulary caused little trouble in this particular circle; and despite the spread of the neomystic cult, "ouija" was familar to only 50 per cent. The n's and one t in Cincinnati still keep it in the general class of "saccalaureate."

WILL CELEBRATE 100TH ANNIVERSARY

SANTAIGO,—Many American nations as well as Great Britain Spain and Portugal are to be formally invited soon to participate in the national festivities in November and December in commemoration of the 400th anniversary of the discovery of the straits of Magellen.

The festivities will center principaly in Santiago and Punta Arenas, the latter the world's southern-most city, where the occasion will be marked by inauguration of important public works including port improvements; lighthouses in Smith channel; and highways between Punta Arenas and Natales, on the south Atlantic coast and laying of a cornerstone of the Punta Arenas University.

King Alfonso of Spain will be represented by the Infant Don Fernando, of Bavary who, according to present plans, will travel aboard a Spanish warship, via the Panama canal, arriving in Santiago in November. It is expected the foreign delegations will visit the straits in December when warships of the Chilean navy will be assembled there. It was thru these waters that Ferdinand Magellen, the Portuguese explorer, first passed in November, 1520.

MUST ELIMINATE FROG-LODYTE MENTALITY

London Professer Says Tribunal Will Not Cease Till This is Done—Have You Got It?

CARDIFF, Wales. — A suggestion that governments should employ anthropologists in an advisory capacity was made by Professor Kar Pearson of London University at the annual conference of the British Association which is just being held here.

The governments of Europe, the professor added, had all kinds of experts in their service, but no ethnological advisers.

"One has only to study the peace of Versailles to see that it is ethologically unsound and cannot be permanent," he said. "India, Egypt, Ireland, even our present relations with America and Italy, show only too painfully how difficult we find it to appreciate the psychology of other nations."

"If the spirit of violence be innate in man," the lecturer concluded, "if there be times when he not only sees red but rejoices in it—and that was the strong impression I formed when I crossed Germany on August 1, 1914, then outbreaks of violence will not cease till troglodyte mentality is bred out of man. That is why the question of troglodyte or hylobatic ancestry is such a vital problem to the state.

PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

YOU have only to remember that our five-passenger Paige Glenbrook is an outgrowth of our experience in the precise methods of war manufacturing to realize that it is a decidedly superior product in the field of light sixes.

It was conceived by Paige engineers during the war period and was brought to perfection only after three years of the most patient research and experimental work.

Its six-cylinder motor is a distinct achievement in engine-building, surpassing every standard of efficiency hitherto attained in light sixes. In body and chassis construction also, it stands as the embodiment of the highest refinements known to automotive engineering.

Search the automobile market as carefully as you please and you will find, we believe, that our five-passenger Paige Glenbrook is quite without equal in the entire light six field.

As a practical vehicle for everyday use, it gives a full and unstinted measure of service for every dollar of its purchase price.

DENVER PREPARING FOR MINING VISITORS

Will Entertain Great Convention in History in November—Many Groups in Mining World Plan to be Present.

DENVER, Colo., Sept. 25.—Denver is preparing for one of the greatest mining conventions in history to be held here during the week beginning November 15. Problems, national and international, which have arisen during the past year in the production of the wasting materials of the nation, such as petroleum, coal, metals and lumber, will be considered by 10 national conferences, correlating their work in one final convention, before which the concrete results of all conference will be placed for ratification.

The movement is fostered by the American Mining Congress, which has called its 23rd annual convention in Denver during that week. Correspondence now being exchanged between the mining organization and the National Coal association, the American Petroleum institute and the various group bodies of coal and metal men and lumber associations, indicate that the meeting of the American Mining congress this year will far surpass in industrial importance the previous convention of that organization held at St. Louis last year.

To Standardize Equipment.

For the first time in America, a standardization conference has been called to organize a national propaganda to standardize all mining equipment, safety codes, methods of accounting, labor saving, sanitary and life saving devices.

Three widely known American engineers, Colonel Warren R. Roberts, of Chicago, Charles A. Mitke, of Arizona and Richard A. Parker have signed the invitation. Colonel Roberts was in charge of the standardization of war munitions in Washington during the war. Mr. Mitke is the leader of standardization movements in metal production, and Mr. Parker, for many years the manager of a group of gold producing mines in Africa, was the first to standardize mining under European management.

A group of coal producers, notable among whom is Colonel Daniel B. Wentz, president of the National Coal association, is in charge of arrangements for the conference of coal producers both anthracite and bituminous.

Gold producers of the United States and bankers who are interested in preventing further depletion of the gold reseve are called for a conference for three days. Petroleum men of the western states will assemble at the convention to discuss legislation intended for the protection of the nation from a fuel and power famine. Several hundred users of oil flotation in the recovery of metals are called to consider the possibility of facing several billions in law suits by the Mineral Separation Limited corporation, and to learn of the government's investigation into the methods of that corporation.

The fight for the recovery of $10,0000,000 alleged to be lost in the production of war minerals which the government called for before the armistice, and has since largely repudiated will be the subject of the War Minerals conference. The legislative convention will have before it the reorganization of national and state laws, blue sky alws and employers' liability laws. State officials, legal experts, mining lawyers and mine operators have been invited to its sessions. An industrial conference, at which many national leaders will be present, will discuss questions relating to labor contracts, wages and working conditions. Legislative committees will beappointed at this meeting.

Working Out New Law.

A new law is now being worked out by a committee from the Mining congress, National Coal association, National Industrial conference and other accredited bodies as proposed substitute for the present law. This committee will call together the tax experts of the country to hear its final report and to revise and adopt suitable clauses affecting the wasting industries. Schools of mines and technical schools have been invited to participate in separate conferences, where the subject of enlarged educational methods to meet present day conditions will be discussed.

Not the least important meeting will be the international conference on Mexican-American Industrial relations, which is being called jointly by the National association for the protection of American rights in Mexico and the American Mining congress. Leading officials and business men of both nations have received formal invitations from both bodies.

Franklin K. Lane, formerly secretary of the Interior of the United States, has been invited to act as chairman of the joint conference and assurances have been received from Mexico that distinguished leaders from that country will be present to participate in the organization of a constructive program which, tho unofficial, will be presented to the governments of the United States and Mexico.

"ELEEMOSYNARY" TRIPS UP SPEAKERS

WASHINGTON. — Those who consider themselves expert spellers may be interested in the result of a series of old-fashioned spelling bees held in a popular sumer resort of North Carolina to determine the words which are most difficult for the person of average education to spell.

By almost unanimous consent, "eleemosynary" was given the steller position, 91 per cent of the contestants meeting disaster upon one or another of the essential vowels. "Connoisseur" wrecked the ambitions of all except those who could be classified under that term itself; "fuchsia" third in terms of difficulty, being followed in order by "tranquillity," "fricassee," "consensus," "supercede," "questionnaire" and "periphery."

"Separate," long in disgrace as the most easily misspelled word in the ordinary vocabulary caused little trouble in this particular circle; and despite the spread of the neomystic cult, "ouija" was familar to only 50 per cent. The n's and one t in Cincinnati still keep it in the general class of "saccalaureate."

WILL CELEBRATE 100TH ANNIVERSARY

SANTAIGO.—Many American nations as well as Great Britain Spain and Portugal are to be formally invited soon to participate in the national festivities in November and December in commemoration of the 400th anniversary of the discovery of the straits of Magellen.

The festivities will center principaly in Santiago and Punta Arenas, the latter the world's southern-most city, where the occasion will be marked by inauguration of important public works including port improvements; lighthouses in Smith channel; and highways between Punta Arenas and Natales, on the south Atlantic coast and laying of a cornerstone of the Punta Arenas University.

King Alfonso of Spain will be represented by the Infant Don Fernando, of Bavary who, according to present plans, will travel aboard a Spanish warship, via the Panama canal, arriving in Santiago in November. It is expected the foreign delegations will visit the straits in December when warships of the Chilean navy will be assembled there. It was thru these waters that Ferdinand Magellen, the Portuguese explorer, first passed in November, 1520.

MUST ELIMINATE FROGLODYTE MENTALITY

London Professer Says Tribunal Will Not Cease Till This is Done—Have You Got It?

CARDIFF, Wales. — A suggestion that governments should employ anthropologists in an advisory capacity was made by Professor Kar Pearson of London University at the annual conference of the British Association which is just being held here.

The governments of Europe, the professor added, had all kinds of experts in their service, but no ethnological advisers.

"One has only to study the peace of Versailles to see that it is ethologically unsound and cannot be permanent," he said. "India, Egypt, Ireland, even our present relations with America and Italy, show only too painfully how difficult we find it to appreciate the psychology of other nations."

"If the spirit of violence be innate in man," the lecturer concluded, "if there be times when he not only sees red but rejoices in it—and that was the strong impression I formed when I crossed Germany on August 1, 1914, then outbreaks of violence will not cease till troglodyte mentality is bred out of man. That is why the question of troglodyte or hylobatic ancestry is such a vital problem to the state.

TO REGULATE SALE OF INTOXICANTS

Santiago—Agitation in favor of rigorous enforcement of regulations governing the sale of intoxicants and for additional measures of control has been growing recently in Chile.

A campaign has been started to make the Araucanian Indian reserve of Cholchol "dry" following a petition to the government from residents in the district alleging violations of the exisiting laws which prohibit the sale of alcoholic drinks on Sundays and feast days and by persons without license. The petitioners declare peddlers visit the Indians on holidays and during their traditional fiestas, trade liquor for blankets, fowls and cereals with the result that the feasts "degenerate in drunken brawls and much disorder."

Movements also have been started by workers in the nitrate and coal fields in favor of prohibiting the sale of liquor on pay days.

FLAGMAN NELSON TELLS OF TROUBLE

Could Hardly Drag About for the Rheumatism Before He Got Tanlac—Is Back On Job Feeling Fine Now

"Getting one's health back after suffering like I did is something to appreciate, and my enthusiasm for Tanlac is simply unbounded," said John G. Nelson, an employee of the C. B. & Q. Railroad, who lives at 244 E. North street, Galesburg, Ill.

"Before I got Tanlac," continued Mr. Nelson, "I went through four years of awful misery, and it was all I could do to get about. The rheumatism in my feet adn ankles caused them to swell and pain me so that I had to wear shoes two sizes too large for me, and my ankles were so stiff that every step was a torture. I lost my appetite and what little I did eat produced a terrible burning in my stomach for hours. My kidneys worried me terribly, and my back ached so bad that after bending over I could hardly straighten up. I was so nervous that at night I would lie awake for hours at a time, and I was losing two or three days a week from my work.

"One of my friends down at the yards told me about Tanlac and before I had finished the first bottle I could tell that I was getting better, and now I am a well man. The rheumatism is gone, my kidneys never trouble me, my stomach is in perfect condition and I never have a pain of any kind. My appetite is just fine and I never have to lay off from my work now."

Tanlac is sold in Jacksonville by Coover Drug Co., J. F. Shreve Drug Store and the leading drug store in every town.

Y. M. C. A. NOTES

Where is my boy tonight? He is not at the "Y." How much time and money will you give to have a modern "Y" that your boy would be proud to be in, and with men you would feel save to have him with.

On Money Raising.

An unusual letter from Georg A. Warburton to his friend, Ed. M. Willis, upon taking on the International Financial Service:

I wonder if many people think of money as concentrated power, a sort of extract of energy compressed and put into a form that can be utilized for the purposes of man. And you are going to lead those who have this form of power to devote it to noble uses, so that it may become an agency or means of Christian progress, among the boys and young men of the world's most wealthy nation.

As related to money your mission will have a double value; its direct value by means of which good things will be done—a thousand varied activities started and kept up and innumerable influences be brought to bear upon the unfolding life of youth, and the other, barely less, perhaps more important, helping those who give to enter into the larger blessedness of willing and joyous givers. It is because of such ideals that your work will have spiritual value for you and for others. If it cannot be as Christ-filled as prayer meetings, evangelistic services or Bible study, then it is not a worthy task for a follower of Christ; but I know, as you do, that prayer, devotion to Christ and the progress of His Kingdom and confidfience in His unfailing omnipotence are needed and can be had, for raising and giving money as truly and as fully as for other things. If you fully grasp what I am trying to say, your whole life will be full of joy and your whole services, even in what is sometimes called "a thankless task," will be lifted to a plane of devotion to Christ that will make it a constant blessing to you and others.

It is well for us to remember that Christ had "all power" given to Him and that therefore the power of money belongs to Him, and in asking those who hold it to give it to His work, you are only following those, who in all the ages, have spoken as His messeingers to their fellowmen, and I am sure that, here and there, at least, you will discover some who get this conception of money for the first time from you and who will, if they answer the call of Christ to sacrifice for Him, feel in their own souls the deep consciousness of His approval. May He ever be near to help and bless you, giving you love, patience and large undying faith.

A TEN ROOM HOUSE on half an acre lot is Japan's first industrial branch at Kameido, East Tokio. Native employers made this club for their workers possible in the factory district's heart.

BUILDING, EQUIPPING and endowing the Association home at Greensburg, Ind., did not end the interest of Nelson Mowery, who has added $2,500 to the endowment.

PLANS FOR A $50,000 building were taken up when the Association at Wilkinsburg, Pa., organized. Thousands of young men drawn there by the Westinghouse Electric industry have acute need for it. The pastors led the movement.

WAY & FAIRBANK

ILL. COLLEGE NOTES

Students still continue to register in the various departments of the college. The total registration this year will be well over 500; the abolition of the preparatory department not having in any way reduced the total attendance. The large freshman class nearly fills the whole center section of the chapel. Among the old students who, after an absence of a year or more, have returned to complete their work are the following: Floyd Lashmet '21, well known for his ability on the track, who spent last year at the University of Michigan; Russell Pinkerton, '23, who was at the University of Illinois last year; Kathleen Emery, '23, who has been teaching the past year; Robert V. Shaw of White Hall; Dale Giberson, '22 of Roodhouse; and Perry LaRue '21 of Jacksonville. Over one hundred students are registered for freshman English; about 90 students are registered for freshman mathematics.

The annual get together meeting was held in the gymnasium Wednesday evening. It was one of the best meetings ever held—the crowd being large and the spirit fine. The program was also better arranged and more successfully caried out than in previous years. This meeting is always held under the auspices of the Y. M. C. A., and Y. W. C. A. who furnish the refreshments for the evening. William Fielding, as president of the Y. M. C. A. presided at the meeting. Representatives of the various student activities spoke explaining the organizations which they represented. Coach Harmon was also among the speakers. He spoke of the football prospects for the season. While emphasizing the fact that predicitions so early in the year are not very reliable, it was nevertheless evident that the coach is, on the whole, pleased with the squad and expects the team to make a creditable showing. It is unfortunate that the schedule does not present a game preliminary to that with Lombard. Lieutenant Edward J. Alexander '16 of the Navy, was present and spoke on behalf of the alumni. Edward Bullard '16 was also at the meeting.

President Rammelkamp will attend a meeting of the Illinois State Historical Library Board at Springfield on Tuesday.

Shortly before the beginning of the college year, Pofessor Erwin Escher of the modern languages department asked the trustees to release him in order that he might accept an appointment on the faculty of Rice Institute at Houston, Texas. The trustees granted the request on condition that they were able to find a satisfactory substitute. They believe they have found an entirely satisfactory stitute in Dr. Charles B. Newcomer, whose apapointment was announced at the opening exercises Wednesday.

An illustrated article on "New England and Illinois" in the Tero-Centenary number of the Congregationalist and Advance, published last spring, contains a cut of "Old Beecher" and several paragraphs on the work of the work of the Yale Band and the influence of Illinois college. The article was written by Howard A. Bridgeman, the editor of the article.

Clarence E. Carter, '05 has recently been appointed one of the editors of the Mississippi Valley Historical Review. This is a fine recognition of Professor Carter's standing as an historian, for the Mississippi Historical Review, is one of the important publications of the country.

Clifford H. Dixon '16 has accepted an appointment as superintendent of schools at Yorkville, Illinois. He will have the supervision of ten rural schools as well as the city schools.

The historical address, which W. D. Wood, '72 delivered on the occasion of the 75th anniversary of Phi Alpha Literary society, has recently been published in attractive pamphlet form. The pamphlet also includes the Phi Adpha songs written for the occasion by George M. McConnell '52.

Dr. Byron C. Darling, secretary of the New York Alumni association of Illinois college was a visitor in Jacksonville one Thursday. Dr. Darling is one of the expert ex-ray men in New York City and was in the west in order to attend an ex-ray convention at Rochester, Minnesota. He was the guest of Dr. and Mrs. F. S. Hayden while in town.

The chemicals and chemical apparatus to replace the material destroyed in the recent Sturtevant fire were received at the college Friday afternoon and the chemicals desks were received Saturday afternoon so that the laboratory work in the department of chemistry will be started during the coming week.

The Reverend A. A. Todd, D. D., pastor of the Baptist church, spoke at the chapel exercises Friday morning, on behalf of the Ministerial association of which he is president. Dr. Todd extended a cordial inviation to the students to the churches of the city and especially to the church social which is to be given on the evening of September 30.

The first devotional meeting of the year will be held at Academy Hall Sunday evening at 6:30.

ANNOUNCEMENT

Relief for Suffering Humanity Has Truly Been Discovered!

This device is different from other forms of therapeutics in that it not only quickly and accurately locates your trouble, but just as quickly relieves it.

All schools of therapy recognize that the principle cause of all disease is, either directly or indirectly, the result of low vitality, commonly called a run-down condition, either of the whole body or in some part, all of which means a lack of MAGNETISM in the body. Now, if this is the cause of disease, or in fact the only real disease, all other so-called diseases being only symptoms, is it not reasonable that THIS IS THE ONLY REAL CURE: To remagnetize or revitalize the body?

THE THERMO-MAGNETIC HEALTH GARMENT sends warm, soothing, yet powerful life-giving, magnetic waves through every cell of the body, revitalizing and surcharging every part, stimulating every cell and organ to more vigorous action which assists Nature (which alone can cure) to throw off the waste and poisons of the body, leaving the rebuilding process unobstructed. Is this not all any school of therapy hopes to do? If so, why not get it direct? THE THERMO-MAGNETIC HEALTH GARMENT IS TRULY A BOON TO SUFFERING HUMANITY.

Boston, Mass., Jan. 20, 1920.

(Fo rprint in your circular from my personal experience.)
Gentlemen:

Watering of the eyes, running of the nose, sneezing, coughing, rapid pulse, high temperature pain "most anywhere," an all-gone feeling, this confusion of symptoms is called influenza.

I have had a number of such cases recently, and a sweat in your Magnetic Mealth Garment has broken up these symptoms and the patients got well.

I do not get a chance to report my influenza cases when I get them early, for I can abort the severe symptims nearly every time. Your Garment even helps me out of difficulties in pneumonia.

A trial will convince any medical skeptic. Your Health Garment is a boon to humanity.

Great Railroads Depend on the Battery with Dreadnaught Plates

WITH THE TRADE MARK Dreadnaught PLATES

Better Have One in Your Car

Get the same reliable service from your starting battery that great railroads get in their signal operation—by using the battery with Dreadnaught Plates.

The life and service of a battery depends primarily on its plates. And the Dreadnaught Plates of the Gould Storage Battery have quality built into them.

To get a more uniform quality of active material than the commercial market yields, the lead oxide for Dreadnaught Plates is Gould made—an exclusive feature of this battery. Long and sturdy service comes from these high-capacity hard plates.

When you need to replace your present battery, base your choice on plates—Dreadnaught Plates—and get a Gould. We have a Gould Storage Battery designed for your car.

Y. M. C. A. NOTES

Where is my boy tonight? He is not at the "Y." How much time and money will you give to have a modern "Y" that your boy would be proud to be in, and with men you would feel save to have him with.

On Money Raising.

An unusual letter from Georg A. Warburton to his friend, Ed. M. Willis, upon taking on the International Financial Service:

I wonder if many people think of money as concentrated power, a sort of extract of energy compressed and put into a form that can be utilized for the purposes of man. And you are going to lead those who have this form of power to devote it to noble uses, so that it may become an agency or means of Christian progress, among the boys and young men of the world's most wealthy nation.

As related to money your mission will have a double value; its direct value by means of which good things will be done—a thousand varied activities started and kept up and innumerable influences be brought to bear upon the unfolding life of youth, and the other, barely less, perhaps more important, helping those who give to enter into the larger blessedness of willing and joyous givers. It is because of such ideals that your work will have spiritual value for you and for others. If it cannot be as Christ-filled as prayer meetings, evangelistic services or Bible study, then it is not a worthy task for a follower of Christ; but I know, as you do, that prayer, devotion to Christ and the progress of His Kingdom and confidfience in His unfailing omnipotence are needed and can be had, for raising and giving money as truly and as fully as for other things. If you fully grasp what I am trying to say, your whole life will be full of joy and your whole services, even in what is sometimes called "a thankless task," will be lifted to a plane of devotion to Christ that will make it a constant blessing to you and others.

It is well for us to remember that Christ had "all power" given to Him and that therefore the power of money belongs to Him, and in asking those who hold it to give it to His work, you are only following those, who in all the ages, have spoken as His messeingers to their fellowmen, and I am sure that, here and there, at least, you will discover some who get this conception of money for the first time from you and who will, if they answer the call of Christ to sacrifice for Him, feel in their own souls the deep consciousness of His approval. May He ever be near to help and bless you, giving you love, patience and large undying faith.

A HUT NEAR DAMASCUS Gate and a playfield along the road to Bethlehem mark the beginning of permanent Association work in the Holy Land. Ground has been promised by the governor of Jerusalem. Work on a large scale for Egyptians, Mohammedans and other nationalities is outlined.

A TEN ROOM HOUSE on half an acre lot is Japan's first industrial branch at Kameido, East Tokio. Native employers made this club for their workers possible in the factory district's heart.

BUILDING, EQUIPPING and endowing the Association home at Greensburg, Ind., did not end the interest of Nelson Mowery, who has added $2,500 to the endowment.

PLANS FOR A $50,000 building were taken up when the Association at Wilkinsburg, Pa., organized. Thousands of young men drawn there by the Westinghouse Electric industry have acute need for it. The pastors led the movement.

ILL. COLLEGE NOTES

Students still continue to register in the various departments of the college. The total registration this year will be well over 500; the abolition of the preparatory department not having in any way reduced the total attendance. The large freshman class nearly fills the whole center section of the chapel. Among the old students who, after an absence of a year or more, have returned to complete their work are the following: Floyd Lashmet '21, well known for his ability on the track, who spent last year at the University of Michigan; Russell Pinkerton, '23, who was at the University of Illinois last year; Kathleen Emery, '23, who has been teaching the past year; Robert V. Shaw of White Hall; Dale Giberson, '22 of Roodhouse; and Perry LaRue '21 of Jacksonville. Over one hundred students are registered for freshman English; about 90 students are registered for freshman mathematics.

The annual get together meeting was held in the gymnasium Wednesday evening. It was one of the best meetings ever held—the crowd being large and the spirit fine. The program was also better arranged and more successfully caried out than in previous years. This meeting is always held under the auspices of the Y. M. C. A., and Y. W. C. A. who furnish the refreshments for the evening. William Fielding, as president of the Y. M. C. A. presided at the meeting. Representatives of the various student activities spoke explaining the organizations which they represented. Coach Harmon was also among the speakers. He spoke of the football prospects for the season. While emphasizing the fact that predicitions so early in the year are not very reliable, it was nevertheless evident that the coach is, on the whole, pleased with the squad and expects the team to make a creditable showing. It is unfortunate that the schedule does not present a game preliminary to that with Lombard. Lieutenant Edward J. Alexander '16 of the Navy, was present and spoke on behalf of the alumni. Edward Bullard '16 was also at the meeting.

President Rammelkamp will attend a meeting of the Illinois State Historical Library Board at Springfield on Tuesday.

Shortly before the beginning of the college year, Pofessor Erwin Escher of the modern languages department asked the trustees to release him in order that he might accept an appointment on the faculty of Rice Institute at Houston, Texas. The trustees granted the request on condition that they were able to find a satisfactory substitute. They believe they have found an entirely satisfactory stitute in Dr. Charles B. Newcomer, whose apapointment was announced at the opening exercises Wednesday.

An illustrated article on "New England and Illinois" in the Tero-Centenary number of the Congregationalist and Advance, published last spring, contains a cut of "Old Beecher" and several paragraphs on the work of the work of the Yale Band and the influence of Illinois college. The article was written by Howard A. Bridgeman, the editor of the article.

Clarence E. Carter, '05 has recently been appointed one of the editors of the Mississippi Valley Historical Review. This is a fine recognition of Professor Carter's standing as an historian, for the Mississippi Historical Review, is one of the important publications of the country.

Clifford H. Dixon '16 has accepted an appointment as superintendent of schools at Yorkville, Illinois. He will have the supervision of ten rural schools as well as the city schools.

The historical address, which W. D. Wood, '72 delivered on the occasion of the 75th anniversary of Phi Alpha Literary society, has recently been published in attractive pamphlet form. The pamphlet also includes the Phi Adpha songs written for the occasion by George M. McConnell '52.

Dr. Byron C. Darling, secretary of the New York Alumni association of Illinois college was a visitor in Jacksonville one Thursday. Dr. Darling is one of the expert ex-ray men in New York City and was in the west in order to attend an ex-ray convention at Rochester, Minnesota. He was the guest of Dr. and Mrs. F. S. Hayden while in town.

The chemicals and chemical apparatus to replace the material destroyed in the recent Sturtevant fire were received at the college Friday afternoon and the chemicals desks were received Saturday afternoon so that the laboratory work in the department of chemistry will be started during the coming week.

The Reverend A. A. Todd, D. D., pastor of the Baptist church, spoke at the chapel exercises Friday morning, on behalf of the Ministerial association of which he is president. Dr. Todd extended a cordial inviation to the students to the churches of the city and especially to the church social which is to be given on the evening of September 30.

The first devotional meeting of the year will be held at Academy Hall Sunday evening at 6:30.

ANNOUNCEMENT

Relief for Suffering Humanity Has Truly Been Discovered!

This device is different from other forms of therapeutics in that it not only quickly and accurately locates your trouble, but just as quickly relieves it.

All schools of therapy recognize that the principle cause of all disease is, either directly or indirectly, the result of low vitality, commonly called a run-down condition, either of the whole body or in some part, all of which means a lack of MAGNETISM in the body. Now, if this is the cause of disease, or in fact the only real disease, all other so-called diseases being only symptoms, is it not reasonable that THIS IS THE ONLY REAL CURE: To remagnetize or revitalize the body?

THE THERMO-MAGNETIC HEALTH GARMENT sends warm, soothing, yet powerful life-giving, magnetic waves through every cell of the body, revitalizing and surcharging every part, stimulating every cell and organ to more vigorous action which assists Nature (which alone can cure) to throw off the waste and poisons of the body, leaving the rebuilding process unobstructed. Is this not all any school of therapy hopes to do? If so, why not get it direct? THE THERMO-MAGNETIC HEALTH GARMENT IS TRULY A BOON TO SUFFERING HUMANITY.

Boston, Mass., Jan. 20, 1920.
To The Thermo-Magnetic Health Garment Co., 1839 Arapahoe St., Denver, Col.
(Fo rprint in your circular from my personal experience.)
Gentlemen:

Watering of the eyes, running of the nose, sneezing, coughing, rapid pulse, high temperature pain "most anywhere," an all-gone feeling, this confusion of symptoms is called influenza.

I have had a number of such cases recently, and a sweat in your Magnetic Mealth Garment has broken up these symptoms and the patients got well.

I do not get a chance to report my influenza cases when I get them early, for I can abort the severe symptims nearly every time. Your Garment even helps me out of difficulties in pneumonia.

A trial will convince any medical skeptic. Your Health Garment is a boon to humanity.

Charles Rosedale, M. D.

Call and see the Garment and read the many testimonials of those who have been relieved. Take advantage of this WONDERFUL OPPORTUNITY. Try a Garment and be convinced.

AMERICAN LEGION TO MEET IN CLEVELAND

Everything in Readiness for Opening Monday of Second Annual Convention of American Legion.

Cleveland, O., Sept. 25.—Everything is in readiness for the opening Monday of the second annual convention of the American Legion, which will be in session here thru Wednesday. Plans have been completed to care for the largest gathering yet held of American war veterans of the world war. In addition to the 3,500 accompanying state delegations.

All hotels have been reserved for the Leginnaires and many are guests in the homes of Clevelanders.

National Commander Franklin D'Olier has been in conference with the executive committee of the legion, composed of a delegates from each state, for several days.

National headquarters were moved here from Indianapolis about two weeks ago, with Lemuel Bolles, of Seattle, national adjutant, in charge.

The first annual reunion of the Thirty-Seventh Division Veterans' association will be held tomorrow. The division had planned to give a reproduction of the "Battle of the Argonne," but owing to the lack of men, it was cancelled when, it is said, the war department, refused to send an additional 8,000 men.

The city is decorated as rarely before in honor of the veterans. Arches have been erected in the downtown districts and stores and buildings are flying the American flag, the service flag and the Legion pennants. Many amusement features have been arranged.

Special Entertainment.

Special entertainment has been arranged for holders of the congressional Medal of Honor, the most difficult of all war decorations to obtain. Forty of the fifty-four living medallists have signified their intention of attending, and will be guests of honor of the Cleveland convention committee.

Admiral Grant, of the British Grand fleet, will be the personal representative of Admiral David Beatty. Gen. Marie Emile Fayolle, who is said to have had more to do with the direct employment of American troops than any other French commander, will represent the French government.

A parade of the fomer service men will be the feature of the opening day.

Many questions, including the bonus, relief for disabled veterans, the Legion's policy in political affairs, the Legion's stand on labor matters, measure pertaining to vocational education, and war ris kinsurance will be discussed, it is expected, during the convention.

Frank D'Olier, national commander, will call the convention to order on Monday at 10 a. m., after which the Rev. Francis J. Kelley, of Troy, N. Y., national chaplain, will deliver the invocation. Mayor W. S. Fitzgerald will deliver the city's address of welcome. Then will come reports of the national commander, of Lemuel Bolles, Seattle, national adjutant, of Robert H. Tyndall, Indianapolis, Indiana, national treasurer, and of various committees. The parade is set for 1:30 p. m.

Routine business will take up the morning of September 28. In the evening there will be dances, boxing exhibitions, and other entertainments.

Unfinished business is scheduled to be cleared on the morning of the 29th. Election of officers will then bring the convention to a close.

ILLINOIS WOMAN'S COLLEGE NOTES

The Woman's College opened for class work Wednesday, September 22. The first chapel exercises were most interesting, and were attended by a great many former students and friends of the school. Mrs. Marguerite Forrest, the new teacher of voice, sang most acceptably; her work was greatly appreciated. The vocal department has been greatly strengthened by the change. Miss Louise Miller played the accompaniment most acceptably for Mrs. Forrest.

The director of physical education, Miss Lambert, is planning an aggressive season for all the students in her department. The tennis tournament has already begun; it is the plan to have the tournament played in the fall, rather than in the spring. The work in swimming will begin in a few days; quite a number of the teachers of the city are planning to use the pool. In addition to hockey, volley ball, basket ball, and tennis, Miss Lambert will add soccer.

Miss Louise Miller has charge of the music at the Central Christian church, and she is planning an interesting and profitable year's work for this congregation. Among those who will assist in the choir work are Mildred Mayer, Helen Carpenter, Kathryn Miller, and Norman Campbell. On the sixth of October Miss Miller will sing in Winchester at the meeting of the Twentieth District Federation Woman's clubs.

A number of unusual musical treats are being planned for the present school year. Mrs. Helen Brown Read is bringing a number of artists to Jacksonville who will appear in the Recital hall of the college of Music. Miss Edith L. Robinson, of the faculty of the college of music, will act as accompanist for the first recital, given by Jules Falk on October 8. The Artists' couse is of unusual interest and value this year. Only a limited number of tickets to this course will be available.

The young women of the college are greatly interested in politics and are organizing the school into the various political groups.

The annual welcoming party for the neww students was held Saturday evening in the gymnasium. A delightful and informal progam was enjoyed by everyone.

A majority of the students expect to go on a hike Monday, and will have a pep meeting, conducted by the Athletic association. Heretofore it has been the rule to hold this meeting in the college chapel, but the new plan is being tried out for the present year.

The 1920 class of the Jacksonville High School is well represented at the college; a number of the leading students of that class are doing the regular college work.

President Harker is attending the meeting of the Central Illinois Conference now in session at Dwight, Ill. He is expecting to return to the city Sunday evening

The College classes all held their meetings Saturday morning at the regular chapel hour for the election of officers and making plans for the activities of the year.

SOCIAL SERVICE LEAGUE NOTES

After a busy summer the winter's work is getting under way. Our office, 221 1-2 W. Morgan street, is open daily from 9 to 5, and there is always something doing.

This week our Relief Committee meets to plan the winter sewing and would be glad if friends would kindly send any old clothing they can or ring up the League and we will call for it.

Miss Marian Fairbank took over the duties of Office Assistant last Monday so that the League now has full-time workers.

Monday the Case Committee met to discuss various problems. Mrs. Charles Fawcett, the chairman, is full of plans and her enthusiasm is infectious. There is the prospect of good work ahead gor the winter.

Anyone with social problems to discuss will be most welcome at the rooms. There will always be someone there ready to give any information about the work that is desired.

JEAN PATERSON,
Superintendent.

SPECIAL SERVICES AT CHRISTIAN CHURCH

Dr. E. E. Violette of Kansas City, has been engaged by the Central Christian church to hold a series of evangelistic meetings in the local church beginning October 24 and continuing for one month. They will be ably assisted by Mr. and Mrs. R. W. Pollock.

REV. J. L. McKAY VISITS HERE

Rev. J. L. McKay, at one time pastor of the Concord circuit of the M. P. church, has been visiting friends in this vicinity. The gentleman has a fine record as a faithful minister and useful man. He is at present in Ladonia, Mo., but expects to move to Atlanta, same state. He has been taking his daughter, Miss Ruth, to the Moody Bible Institute at Chicago to study bible and music.

MATHIS, KAMM & SHIBE SAY:

Yes, this store is selling fall shoes at the new prices. Strictly high grade shoes still cost money but many medium priced lines are now available. The value of a shoe depends not only on the materials of which it is made, but also on the workmanship, the style and the fit; these things can be determined only by examination and comparison. Call and see them; no trouble to show goods.

The young women of the college are greatly interested in politics and are organizing the school into the various political groups.

The annual welcoming party for the neww students was held Saturday evening in the gymnasium. A delightful and informal progam was enjoyed by everyone.

A majority of the students expect to go on a hike Monday, and will have a pep meeting, conducted by the Athletic association. Heretofore it has been the rule to hold this meeting in the college chapel, but the new plan is being tried out for the present year.

The 1920 class of the Jacksonville High School is well represented at the college; a number of the leading students of that class are doing the regular college work.

President Harker is attending the meeting of the Central Illinois Conference now in session at Dwight, Ill. He is expecting to return to the city Sunday evening

The College classes all held their meetings Saturday morning at the regular chapel hour for the election of officers and making plans for the activities of the year.

AN OCCASIONAL EYE EXAMINATION

may save you years of natural eye sight, and possibly lots of trouble and expense. If you need to see an oculist, for treatment, we will frankly tell you so. If glasses will correct existing trouble we can fit you properly.

SOCIAL SERVICE LEAGUE NOTES

After a busy summer the winter's work is getting under way. Our office, 221 1-2 W. Morgan street, is open daily from 9 to 5, and there is always something doing.

This week our Relief Committee meets to plan the winter sewing and would be glad if friends would kindly send any old clothing they can or ring up the League and we will call for it.

Miss Marian Fairbank took over the duties of Office Assistant last Monday so that the League now has full-time workers.

Monday the Case Committee met to discuss various problems. Mrs. Charles Fawcett, the chairman, is full of plans and her enthusiasm is infectious. There is the prospect of good work ahead gor the winter.

Anyone with social problems to discuss will be most welcome at the rooms. There will always be someone there ready to give any information about the work that is desired.

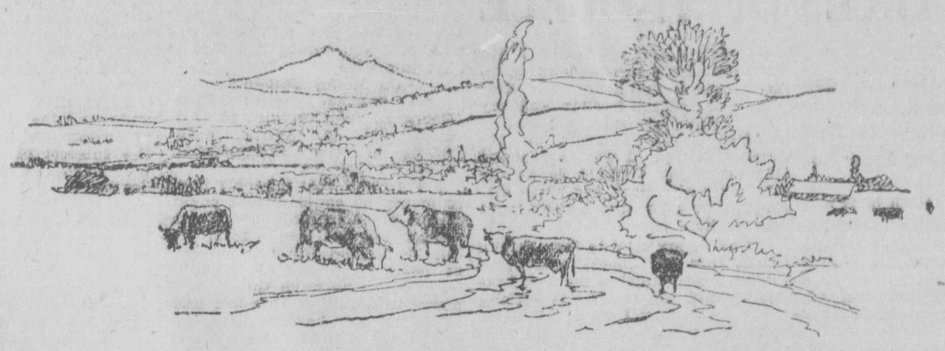

JEAN PATERSON,
Superintendent.

SPECIAL SERVICES AT CHRISTIAN CHURCH

Dr. E. E. Violette of Kansas City, has been engaged by the Central Christian church to hold a series of evangelistic meetings in the local church beginning October 24 and continuing for one month. They will be ably assisted by Mr. and Mrs. R. W. Pollock.

REV. J. L. McKAY VISITS HERE

Rev. J. L. McKay, at one time pastor of the Concord circuit of the M. P. church, has been visiting friends in this vicinity. The gentleman has a fine record as a faithful minister and useful man. He is at present in Ladonia, Mo., but expects to move to Atlanta, same state. He has been taking his daughter, Miss Ruth, to the Moody Bible Institute at Chicago to study bible and music.

Now, a finer milk for every home in Jacksonville

Product of famous pasture lands now to be sent here in sufficient quantity for everybody

Libby, McNeill & Libby announce that they have now arranged to meet the demand from Jacksonville for their Evaporated Milk.

Produced, as this milk is, from the fine yields of dairy sections noted for their rich milk and cream—it has been impossible heretofore to supply all who wanted it.

But now all grocers in Jacksonville and this vicinity have or can get Libby's Evaporated Milk.

Your grocer has it.

You can now have the finer-flavored coffee, the more delicious cooking which users of Libby's Evaporated Milk know so well.

Libby, McNeill & Libby, Chicago

MATHIS, KAMM & SHIBE SAY: Yes, this store is selling fall shoes at the new prices. Strictly high grade shoes still cost money but many medium priced lines are now available. The value of a shoe depends not only on the materials of which it it is made, but also on the workmanship, the style and the fit; these things can be determined only by examination and comparison. Call and see them; no trouble to show goods.

Mr. and Mrs. Fred Dust of Champaign have returned to their home after a visit with relatives in Jacksonville.

Daily Market Report

WHEAT AGAIN TAKES TUMBLE

(By Associated Press.)
CHICAGO, Sept. 25.—Wheat today continued to be the target in the drive against high prices with the result that the market renewed its downward trend, but not on as large a scale as yesterday. At the finish the market showed a net loss of 7c, corn was off 1⅞ to 1½c, oats were down ⅜ to 1¼ and provisions ranged from unchanged to 27c lower.
There was a big demand for the cereal on the break from export houses but even this failed to halt the decline.
New low figures on the crop were reached today for the deferred futures of corn. Liquidation was on and while there was a fair support early it was withdrawn later when wheat broke sharply.
Oats showed stubborn resistence to selling pressure but weakened with other grains and also sold down to new low figures on the crop, provisions were weak and lower the decline in grains and commodity prices being the main influence.

STOCK MARKET HAS STEADY FINISH
(By Associated Press.)
NEW YORK, Sept. 25.—The short interest in the stock market attempted at the outset of today's brief session to press its advantage of recent days further losses sustained by many speculative shares.
Buying of oils, rails and some of the steels and equipments turned the tide, however, the general list making rapid recovery, with some substantial gains at the fairly steady finish.
Prominent issues of the rally embraced the Mexican group of petroleums, also Houston, Royal Dutch and sheel trading. Crucible, Vandanium, Lackawanna and Sloss-Sheffield Steels, Baldwin Locomotive and several of the coppers, tobaccos and leathers. Sales amounted to 275,000 shares.
Increased strength was shown by the bond market in which liberty issues were conspicuous for additional gains. Speculative rails also hardened, with firmness. Total sales (par values) aggregated $8,850,000.
The weekly report of the clearing house was noteworthy for another enormous expansion of actual loans. That items increased by almost $170,000,000 or a total approximating $283,-
This brings actual loans, discounts, investments, etc., of the clearing house to a grand total of about $5,400,000,000, a high record for the year to date.

Daily Market Report

WHEAT AGAIN TAKES TUMBLE

(By Associated Press.)
CHICAGO, Sept. 25.—Wheat today continued to be the target in the drive against high prices with the result that the market renewed its downward trend, but not on as large a scale as yesterday. At the finish the market showed a net loss of 7c, corn was off 1⅞ to 1½c, oats were down ⅜ to 1¼ and provisions ranged from unchanged to 27c lower.
There was a big demand for the cereal on the break from export houses but even this failed to halt the decline.
New low figures on the crop were reached today for the deferred futures of corn. Liquidation was on and while there was a fair support early it was withdrawn later when wheat broke sharply.
Oats showed stubborn resistence to selling pressure but weakened with other grains and also sold down to new low figures on the crop, provisions were weak and lower the decline in grains and commodity prices being the main influence.

STOCK MARKET HAS STEADY FINISH

(By Associated Press.)
NEW YORK, Sept. 25.—The short interest in the stock market attempted at the outset of today's brief session to press its advantage of recent days further, losses sustained by many speculative shares.
Buying of oils, rails and some of the steels and equipments turned the tide, however, the general list making rapid recovery, with some substantial gains at the fairly steady finish.
Prominent issues of the rally embraced the Mexican group of petroleums, also Houston, Royal Dutch and sheel trading, Crucible, Vandanium, Lackawanna and Sloss-Sheffield Steels, Baldwin Locomotive and several of the coppers, tobaccos and leathers. Sales amounted to 275,000 shares.
Increased strength was shown by the bond market in which liberty issues were conspicuous for additional gains. Speculative rails also hardened, with firmness. Total sales (par values) aggregated $8,850,000.
The weekly report of the clearing house was noteworthy for another enormous expansion of actual loans. That items increased by almost $170,000,000 or a total approximating $283,-
This brings actual loans, discounts, investments, etc., of the clearing house to a grand total of about $5,400,000,000, a high record for the year to date.

NATIONAL ENCAMPMENT WAS GREAT SUCCESS

Indianapolis Was Turned Over to Veterans—Big Parade Was Feature.

The Fifty-Fourth National Encampment of the Grand Army of the Republic at Indianapolis will go down to history as a grand and successful occasion, thanks to the governor of New Jersey, to a large extent. The affair was invited to Atlantic City and the New Jersey legislature appropriated $30,000 for the expenses whereupon the governor of the state notified the lawmakers that the whole sum must be devoted to New Jersey veterans or he would veto the bill, whereupon the G. A. R., council of administration promptly asked for invitations and in a few moments the capital of Hoosierdom applied and the bid was promptly accepted much to the pleasure of many living westward. The whole city was placed at the command of the grey haired visitors and if anything possible for their welfare and comfort was left undone an investigating committee would have hard work to find it. Boy Scouts, street cars, automobiles, shoe shining stands and in fact, everything possible was handed over. The city was profusely decorated with flags and national colors while "Welcome, G. A. R." was seen everywhere.

There was no disposition to overcharge and restaurants and lunch rooms had very reasonable prices. One taxi man charged a veteran $1.50 for an ordinary ride; the matter was reported to the authorities and the offender's license was taken from him.

Boy Scouts were in abundance at all trains to meet incoming veterans and men were there to direct them to quarters if desired.

Former Resident Entertains.

George W. Fox, who is so well known to a majority of the people of this place, tried to entertain six Jacksonville people, but thru a misunderstanding he only managed to get three. S. O. Barr, Thomas Paschall and S. W. Nichols.

Mr. Fox lives in Woodruff Place which is certainly an unusual territorial arrangement. Away within the city limits it is situated on a piece of ground a quarter of a mile wide and a half mile long with three streets, or drives thruout the long way. It is thickly settled by people generally owning fine houses. The tract is not incorporated with the rest of the city, but is a realm to itself, to a great device. A street car line runs by it; it is supplied with electric lights and sewer for which it pays; school tax is collected and children are admitted to the public schools but otherwise the place is distinct, tho the city limits extend away beyond it for miles. Mr. Fox holds an important position in the place and he and his estimable wife stand high in the regard of all who know them.

Their youngest daughter is the wife of Dr. M. E. Clark, a highly successful man in his profession and owning a home which is about as near perfection as a human domicle can well be. It was in that lovely abode that the three Jacksonville men mentioned were received with an unbounded hospitality while to them Mr. Fox devoted his entire time making their visit all that could be asked. Their obligations to him and his are very great.

Indianapolis is a beautiful city, prosperous and growing and there is no telling where it will end. The houses are generally well built and the streets well paved, while it is rich in parks, some of them very fine. It also has abundant facilities in the way of school houses, churches, factories, libraries and in fact, all that goes to make a first-class place.

Monument Crowning Glory.

Its crowning glory is the soldiers' monument. For the benefit of the good people who didn't want the monument in this place to be in Central park it may be suggested that this monument is right in the heart of the city, is a landmark, the pride of every Hoosier and the glory of the commonwealth. It is said to be the finest one of the kind in the United States and one can easily believe it.

The attendance of the veterans and other orders was estimated at 60,000 and there seemed to be that many. Grey heads from California met others from Massachusetts, blue coats from Minnesota greeted others from Texas; Maine and Florida shook hands while Alabama and North Dokota went side by side. The general, colonel, major and private were on a level and "comrade" was the only term known.

One impressive organization is the National Association of Civil War Musicians One officer lives in Washington, another in Long Beach, California; two or three in Chicago, one in Pasadena, California, and one in Yellow Springs, Ohio. At the reunion or encampment they mustered four fifes, six snare drums and three bass drums and fairly made the welkin ring. They wore the old army blue and their appearance marched into hotel rotundas and was the signal for applause. They made the windows rattle; they went to the state house and serenaded the governor; they were a fine feature of the great parade tho they paraded themselves much of the entire time of the encampment.

There was one drum corps composed of ladies modestly arranged in white; several other drum corps and of course plenty of brass bands, but the old fellows in blue with their fifes and drums were the favorites.

Parade Big Feature.

Of course, the event of the occasion was the grand parade Wednesday morning. The old boys don't thank the person who started the rumor that they wouldn't march any more. It is a vile slander. It is estimated that there were 15,000 in line while a great many more didn't march. They looked just as able as the men who did walk, but possibly their reasons for staying out were good. It was probably unavoidable but it did seem as if they kept us in line too long before starting the parade. It seemed an age in the hot sun but was less than an hour. The line of march was a little more than a mile in length. I took the liberty of marching with the Illinois division as it is always placed at the head because it was in Illinois that the G. A. R. was organized. By that means a tedious wait at the rear end ws avoided.

The whole line of march was densely packed with tens of thousands of spectators. It was estimated that there were a hundred thousand visitors in the city. They applauded us lustily as w passed along; watar was supplied by Boy Scouts and all went well. There were few heat prostrations; one old fellow who had been placed in an ambulance jumped out and joined the ranks. There were ambulances on every hand and first aid stations but they were little needed. Of course the old fellows were pretty well tired out but most of them said they would keep on for years to come if their lives were spared.

Notes.

Among the men seen by the writer was John Snyder, formerly of this place, and now of Canton To him belongs much of the credit for organizing the G. A. R. F. M. Palmer and Squire H. B. Baxter were other familiar faces encountered.

The campfire Tuesday night was a fine affair, full of pep, patriotism and brotherhood. One foreign speaker took occasion to give the league of nations a rap and he was loudly applauded tho no politics was the rule everywhere.

There were many regimental reunions but it was a bit pathetic to see the small number of old boys left.

One former Jacksonville man was so anxious to meet Capt. Lee, Capt. Swales, Capt. Wright, Alex Armstrong and others who have answered the last roll call.

One eccentric old blue coat convulsed several crowds by carrying a fiddle and with old time jig music started a number of grey heads to dancing.

The Geo. H. Thomas post of Chicago, made a splendid appearance.

The Boy Scouts had a fine band and in general they and all the rest conducted themselves like gentlemen.

The activity of the old fellows was many times commented on. Of course it was the spry ones who marched while many were not able to be present.

The only really hard feeling displayed was by the prisoners of war at their especial reunion. One can hardly censure them when the atrocities of Andersonville and other southern prison hells are brought to mind.

The Sons of Veterans, Women's Relief Corps, Daughters of Veterans, Sons of Veterans Auxiliary, National Associations of Army Nurses of the Civil war, Ladies of the Grand Army of the Republic and National Alliance Daughters of Veterans and kindred organizations were all in evidence.

By a provoking error the name of S. O. Barr, was omitted from the first published of those going.

Charles Anderson, a barber and brother-in-law of Wash Cooper of this city, was seen by the Jacksonville contingent.

The Pasadena veterans' drum corps was a fine body of grey heads who played with vigor.

One eccentric old chap was decorated with twenty or thirty medals, badges and the like and seemed very proud of them.

A noted character was James H. Cowgill who enlisted before he was quite fourteen.

Another notable present was D. M. Osyer of Columbus, Ohio. He fired the last shot of the war and hit a Confederate sergeant in the knee. It was the last shot. Oyser was wading in a pond of water waist deep when a ball from a sharpshooter took off the stripes on his arm and he returned the compliment by hitting his assailant in the knee just as the last flag of truce was raised. Years afterward the two met and shook hands cordially.

About the youngest person in line was Henry Dauber, the mascot of post 88 Bellevue, Penn. He is six years old and marched like a hero.

The meetings of old time comrades was interesting to see. One would walk up to another:

"Say; your'e from Ohio. I enlisted there too."

"What regiment and company?"

"Why, the —th Co. B."

"Did you know Tom Spencer?"

"Well, I guess I ought to as that's me."

"Tom!" Have you forgotten Joe Mixer?,,

"Say Joe, is that you, you grey haired old sinner?" Shake."

And then would follow reminiscences of days and events of long ago when the two marched side by side.

In 1890 the membership of the G. A. R. was in round numbers 334,000 but it is now only 103,241 and rapidly decreasing.

A good many posts have gone out of existence owing to the death and removal of members and it was suggested that veterans living in such communities to affiliate with the division or some way to pay dues and keep up membership.

There was quite a sentiment for merging the G. A. R., Spanish War Veterans and American Legion. There are many arguments pro and con and it is doubtful if it could be accomplished without some strong opposition.

The meeting between Llewellyn Johnson and George Fox was especiall pleasant. They were boys together and Mr. Fox often remarked that Llewellyn was Mr. Fox's father's pet.

Wednesday evening Mr. Smith, a neighbor of Mr. Fox, took the latter and his guests on a long automobile ride, taking in Fort Benjamin Harrison with the other sights. There are several acres of motor trucks which for a while were in the fields but are now under cover. There are 700 troops in the fort but they soon expect to be sent to Texas.

NATIONAL ENCAMPMENT WAS GREAT SUCCESS

Indianapolis Was Turned Over to Veterans—Big Parade Was Feature.

The Fifty-Fourth National Encampment of the Grand Army of the Republic at Indianapolis will go down to history as a grand and successful occasion, thanks to the governor of New Jersey, to a large extent. The affair was invited to Atlantic City and the New Jersey legislature appropriated $30,000 for the expenses whereupon the governor of the state notified the lawmakers that the whole sum must be devoted to New Jersey veterans or he would veto the bill, whereupon the G. A. R., council of administration promptly asked for invitations and in a few moments the capital of Hoosierdom applied and the bid was promptly accepted much to the pleasure of many living westward. The whole city was placed at the command of the grey haired visitors and if anything possible for their welfare and comfort was left undone an investigating committee would have hard work to find it. Boy Scouts, street cars, automobiles, shoe shining stands and in fact, everything possible was handed over. The city was profusely decorated with flags and national colors while "Welcome, G. A. R." was seen everywhere.

There was no disposition to overcharge and restaurants and lunch rooms had very reasonable prices. One taxi man charged a veteran $1.50 for an ordinary ride; the matter was reported to the authorities and the offender's license was taken from him.

Boy Scouts were in abundance at all trains to meet incoming veterans and men were there to direct them to quarters if desired.

Former Resident Entertains.

George W. Fox, who is so well known to a majority of the people of this place, tried to entertain six Jacksonville people, but thru a misunderstanding he only managed to get three. S. O. Barr, Thomas Paschall and S. W. Nichols.

Mr. Fox lives in Woodruff Place which is certainly an unusual territorial arrangement. Away within the city limits it is situated on a piece of ground a quarter of a mile wide and a half mile long with three streets, or drives thruout the long way. It is thickly settled by people generally owning fine houses. The tract is not incorporated with the rest of the city, but is a realm to itself, to a great device. A street car line runs by it; it is supplied with electric lights and sewer for which it pays; school tax is collected and children are admitted to the public schools but otherwise the place is distinct, tho the city limits extend away beyond it for miles. Mr. Fox holds an important position in the place and he and his estimable wife stand high in the regard of all who know them.

Their youngest daughter is the wife of Dr. M. E. Clark, a highly successful man in his profession and owning a home which is about as near perfection as a human domicle can well be. It was in that lovely abode that the three Jacksonville men mentioned were received with an unbounded hospitality while to them Mr. Fox devoted his entire time making their visit all that could be asked. Their obligations to him and his are very great.

Indianapolis is a beautiful city, prosperous and growing and there is no telling where it will end. The houses are generally well built and the streets well paved, while it is rich in parks, some of them very fine. It also has abundant facilities in the way of school houses, churches, factories, libraries and in fact, all that goes to make a first-class place.

Monument Crowning Glory.

Its crowning glory is the soldiers' monument. For the benefit of the good people who didn't want the monument in this place to be in Central park it may be suggested that this monument is right in the heart of the city, is a landmark, the pride of every Hoosier and the glory of the commonwealth. It is said to be the finest one of the kind in the United States and one can easily believe it.

The attendance of the veterans and other orders was estimated at 60,000 and there seemed to be that many. Grey heads from California met others from Massachusetts, blue coats from Minnesota greeted others from Texas; Maine and Florida shook hands while Alabama and North Dokota went side by side. The general, colonel, major and private were on a level and "comrade" was the only term known.

One impressive organization is the National Association of Civil War Musicians One officer lives in Washington, another in Long Beach, California; two or three in Chicago, one in Pasadena, California, and one in Yellow Springs, Ohio. At the reunion or encampment they mustered four fifes, six snare drums and three bass drums and fairly made the welkin ring. They wore the old army blue and their appearance marched into hotel rotundas and was the signal for applause. They made the windows rattle; they went to the state house and serenaded the governor; they were a fine feature of the great parade tho they paraded themselves much of the entire time of the encampment.

There was one drum corps composed of ladies modestly arranged in white; several other drum corps and of course plenty of brass bands, but the old fellows in blue with their fifes and drums were the favorites.

Parade Big Feature.

Of course, the event of the occasion was the grand parade Wednesday morning. The old boys don't thank the person who started the rumor that they wouldn't march any more. It is a vile slander. It is estimated that there were 15,000 in line while a great many more didn't march. They looked just as able as the men who did walk, but possibly their reasons for staying out were good. It was probably unavoidable but it did seem as if they kept us in line too long before starting the parade. It seemed an age in the hot sun but was less than an hour. The line of march was a little more than a mile in length. I took the liberty of marching with the Illinois division as it is always placed at the head because it was in Illinois that the G. A. R. was organized. By that means a tedious wait at the rear end ws avoided.

The whole line of march was densely packed with tens of thousands of spectators. It was estimated that there were a hundred thousand visitors in the city. They applauded us lustily as we passed along; watar was supplied by Boy Scouts and all went well. There were few heat prostrations; one old fellow who had been placed in an ambulance jumped out and joined the ranks. There were ambulances on every hand and first aid stations but they were little needed. Of course the old fellows were pretty well tired out but most of them said they would keep on for years to come if their lives were spared.

Notes.

Among the men seen by the writer was John Snyder, formerly of this place, and now of Canton To him belongs much of the credit for organizing the G. A. R. F. M. Palmer and Squire H. B. Baxter were other familiar faces encountered.

The campfire Tuesday night was a fine affair, full of pep, patriotism and brotherhood. One foreign speaker took occasion to give the league of nations a rap and he was loudly applauded tho no politics was the rule everywhere.

There were many regimental reunions but it was a bit pathetic to see the small number of old boys left.

One former Jacksonville man was so anxious to meet Capt. Lee, Capt. Swales, Capt. Wright, Alex Armstrong and others who have answered the last roll call.

One eccentric old blue coat convulsed several crowds by carrying a fiddle and with old time jig music started a number of grey heads to dancing.

The Geo. H. Thomas post of Chicago, made a splendid appearance.

The Boy Scouts had a fine band and in general they and all the rest conducted themselves like gentlemen.

The activity of the old fellows was many times commented on. Of course it was the spry ones who marched while many were not able to be present.

The only really hard feeling displayed was by the prisoners of war at their especial reunion. One can hardly censure them when the atrocities of Andersonville and other southern prison hells are brought to mind.

The Sons of Veterans, Women's Relief Corps, Daughters of Veterans, Sons of Veterans Auxiliary, National Associations of Army Nurses of the Civil war, Ladies of the Grand Army of the Republic and National Alliance Daughters of Veterans and kindred organizations were all in evidence.

By a provoking error the name of S. O. Barr, was omitted from the first published of those going.

Charles Anderson, a barber and brother-in-law of Wash Cooper of this city, was seen by the Jacksonville contingent.

The Pasadena veterans' drum corps was a fine body of grey heads who played with vigor.

One eccentric old chap was decorated with twenty or thirty medals, badges and the like and seemed very proud of them.

A noted character was James H. Cowgill who enlisted before he was quite fourteen.

Another notable present was D. M. Oyser of Columbus, Ohio. He fired the last shot of the war and hit a Confederate sergeant in the knee. It was the last shot. Oyser was wading in a pond of water waist deep when a ball from a sharpshooter took off the stripes on his arm and he returned the compliment by hitting his assailant in the knee just as the last flag of truce was raised. Years afterward the two met and shook hands cordially.

About the youngest person in line was Henry Dauber, the mascot of post 88 Bellevue, Penn. He is six years old and marched like a hero.

The meetings of old time comrades was interesting to see. One would walk up to another:

"Say; your'e from Ohio. I enlisted there too."

"What regiment and company?"

"Why, the —th Co. B."

"Did you know Tom Spencer?"

"Well, I guess I ought to as that's me."

"Tom!" Have you forgotten Joe Mixer?,,

"Say Joe, is that you, you grey haired old sinner?" Shake."

And then would follow reminiscences of days and events of long ago when the two marched side by side.

In 1890 the membership of the G. A. R. was in round numbers 334,000 but it is now only 103,241 and rapidly decreasing.

A good many posts have gone out of existence owing to the death and removal of members and it was suggested that veterans living in such communities to affiliate with the division or some way to pay dues and keep up membership.

There was quite a sentiment for merging the G. A. R., Spanish War Veterans and American Legion. There are many arguments pro and con and it is doubtful if it could be accomplished without some strong opposition.

The meeting between Llewellyn Johnson and George Fox was especiall pleasant. They were boys together and Mr. Fox often remarked that Llewellyn was Mr. Fox's father's pet.

Wednesday evening Mr. Smith, a neighbor of Mr. Fox, took the latter and his guests on a long automobile ride, taking in Fort Benjamin Harrison with the other sights. There are several acres of motor trucks which for a while were in the fields but are now under cover. There are 700 troops in the fort but they soon expect to be sent to Texas.
